

NOMINAL CARD INDEX for the LOWER CANADA
MARRIAGE BONDS

INDEX NOMINATIF des Cautionnements de
Mariages, BAS CANADA

The bonds are also available on microfilm.
The Shelf List which follows identifies the
arrangement of the bonds within the volumes
which form the series.

Legibility of many bonds compromises the
reliability of this index.

Persons who were married following publication
of banns in their parish churches were not
required to have a marriage licence and thus
did not post a bond.

Les cautionnements sont aussi disponible sur
microfilm. Le classement des documents est
chronologique -- voir le répertoire numérique
ci-dessous.

Les noms sont indexés selon l'épellation
trouvé dans les documents.
