A DISTINGUISHED VISITOR

His Grace, the Archbishop of Westminster, head of the Roman Catholic
Church in Great Britain and suite,
have signified their intention of attending the Eucharistic Congress that
will be held in Montreal next September. It is probable that His Grace will
be accompanied by the Duke of Norfolk, the leading lay head of the Roman
Catholic Church in England.
While in Canada, this distinguished

While in Canada, this distinguished party will visit Ottawa, Toronto, Ham-ilton, Niagara Falls and other important places.

His Grace has accepted the invita-tion extended by President Chas. M. Hays, for himself and suite to be the guest of the Grand Trunk on their Canadian tour.

FROM "CLANG" TO "CHIME."

FROM "CLANG" TO "CHIME."
A pleasant recreation for spare moments is to change words from one to another by altering one letter at a time. If you have never tried it you will be surprised to see how interesting and, often, how difficult this is. Making "clang" into "chime" is not easy by any means; but more wonderful still is the change effected by transforming the "clang" of steel into the sweet "chime" of bells.

For almost as many wears as bells.

the awest "chime" of bells.

For almost as many years as bells have been made they consisted of an alloy of the and copper, and this combination has become known as "bell metal." The advancing cost of these metals to a point where they are now spoken of as "semi-precious," meant increased prices until bells, except for rich churches, were almost out of the question. question.

question,

Right when such a condition seemed certain, American ingenuity made a discovery—that steel, made into an alloy with certain metals, formed a perfect "bell metal." How this combination of metals is made is a trade secret; but the joyous fact is sufficient that church bells of unexcelled tone may now be had at reasonable cost. These bells are now made in peals and singles, and are adapted to all uses. Perhaps the day will come when we will be using steel in the same proportions for church bells as we are now making it into cannons.

will be using steel in the same proportions for church bells as we are now making it into cannons.

The story of this new bell metal discovery is told in a beautiful book issued by the Cincinnati Bell Foundry Co., manufacturers of the historic Blymyer church bells, Cincinnati, O. A request will bring you a copy.

An hour of solitude passed in silence and earnest prayer in conflict with and conquest over a single passion or subtle bosom sin will teach us more of thought, will more-effectually awaken the faculty and form the habit of reflection than a year's study in the schools without them.

.......... STURDY CHILDREN

STURDY CHILDREN.

In every home where Baby's 'Own Tablets are used you will find rosy, sturdy, good-natured children, because the Tablets ecleanse the stomach and bowels, and digestion and thus bring perfect health. And you can give them with equal safety to the new born baby or the well grown child. Mrs. A. E. McLeod, Woodstock, Ont., says: "I have used Baby's Own Tablets since my baby was two weeks old and have found them of great benefit for the aliments of childhood especially for stomach and bowell troubles and when teething." Sold by medicine dealers or by mail at 5c cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

CHURCH
