......x JERSEY NEWS

The firm of B. H. Bull' and Son, of empton. have recently imported 117 are bred Jerseys from the Island of Jerg. These animals were kept for some me in the Canadian National Exhibition ng the Canadian National Exhibition nds in Toronto, where their increase ght the number up to 140. It is said to the largest importation of eattle brought into Canada.

JERSEY BREEDERS ACTIVE

IRREFY BREEDERS ACTIVE
is a meeting of the directors of the left
leger Breeders' Cattle Club held recently This
pressto. It was decided to spend \$500 the
generation of the spend \$500 the
generation of the spend \$500 the
generation of the spend \$500 the
daysper at intervals in each of these
pages. It was also decided to offer \$550 old
grizes for Jersey owns that qualify and
Jasies for Jersey owns that qualify and
deprivation of the spending the spending the spending the spending the spending the spending to decide.

When the spending to the spending the spend se prizes will be awarded was left to a smittee to decide.

The first herd book to be issued by the b is nearing completion and will be shilled shortly. The club is ondeavoring to secure illus-rations of Jersey cows that have qualified in the Record of Performance test. These cis will be published in the farm papers advertise the breed.

GOOD JERSEYS FOR CANADA

The following letter received from A. W. (Laton, Strathcona, U.S.A., by Mr. R. (Laton, Strathcona, U.S.A.) (Laton, Strathcona, U.S.A., by Mr. R. (Laton, Strathcona, U.S.A.) (Laton, Strathcona, U.S.A., by Mr. R. (Laton, Str

"We have completed the sale of our Jer-"We have completed the sale of Ganano-as Ont. is the purchaser; 25 in all, con-sing of seven purchered cows; three elfers, three years old; five heifers, two sars and under; four heifers, one year ad under; one bull, three years and

d under: one bull, three years and regrade cows.

'Among the lot was Lady Cartner's East-tily; 18,338, A.J.C.C., a seven-year-old as that gave us from February 14, 1911, y to February 15, 1912, 9,973 bbs. milk. west butter fat test 5.5, highest 6.7. est butter fat test 5.5, highest 5.7, at 60 days before finishing her year, would probably have tested seven per she would probably have tested seven per sent the last mouth, but, unfortunately, she slipped her call 10 days after test while we were, trying to dry her up. We attribute this to getting frozen ensilage. "Jancher was Pride's Mystery, 1618, GJ.G.O. a two-year-old under test last believed by the sent of the sent of the Bid days, test 5.4 to 7 per cent. This bid days, test 5.4 to 7 per cent. This bid days, test 5.4 to 7 per cent. This bid days, test 5.4 to 7 per cent. This bid days the sent of the sent of the sent bid again on March 11, and was giving the sent of the sent of the sent of the With proper handling she should be heard from.

Economize on Milk for Calves and Make More Money

Raise healthy, thrifty, vigorous You can do this by using

CALFINE

"The Stockman's Friend' (Made in Canada)

CALFINE is a Pure, Wholesome, utritious meal for calves. It is nade in Canada, and you have no duty to pay

Feeding directions sent on appli-

Ask your dealer for Calfine. If he does not handle it, send us a money order for \$2.75, and we will send 100 lbs. to any station in Ontario. We pay the freight.

CANADIAN CEREAL AND MILLING CO., LIMITED TORONTO, CANADA

"The cow and heifer under test were not "The cow and heifer under test were not forced, but were on regular ration they would have received without being under test, viz., one pound of grain to each three pounds milk produced at the maximum flow."

J. W. Stewart, of Lyne, and myself have secured a son of Fairview Lady Korndyke, no two years old. "e was aired by Rag Apple Korndyke, a son of Fontiae Hadden to the Company of the Compa in seven days. She also gave 25,318 lbs. of milk in one year and made a worl's re-cord of 1,271 lbs. butter in one year, 75 per cent the same breeding as Pontisc Pet, 37.58 lbs. in seven days. These two cows were daughters of Pontisc Clothilde Dokol, a 25-pound daughter of Hengerveld

We could write a book about the an-cestors of this great bull. Space will not permit. Where can you find anything greater than a son of a 35-pound cow, whose dam has a record of 29 lbs. at four years old, sire's dam, 31-pound record at four years old? Anyone wishing service of this bull can secure same for \$100 per cow. For further particulars write J. per cow. For further particulars write J. hard, Manhard P. O., Ont.

A PROGRESSIVE ADVERTISER

A PROGRESSIVE ADVERTISER
Mr. Gooderhum, notes on whose Holsteins appeared in Farm and Dairy
last week, looks upon his farm and
his cattle with the eye of a progressive
business man. His experience with certified milk and the public in Toronto have
taught him the value of advertising. He
has started in now to make his eattle
known to Holela Extract—a started with the cattle
known to Holela Extract—a should be known to Holstein breeders and other breeders of dairy cattle throughout the length and breadth of Canada by adver-tising liberally each week in Parm and Dairy, which reaches these people he de-sires to interest, and with whom he can do business. Mr. Gooderham's advertisedo business. Mr. Gooderham's advertise-ment will occupy one-quarter page space in every issue for practically the whole of a year at least. As a business proposi-tion, Mr. Gooderham's advertisement is a sound investment; and it represents him in reality using the value of one of his better cown to advertise and make sale for the other 100, and their increase.

When you market your crops at home be sure and market them to the right kind of stock. Pure-bred stock is the best paying market.

Read The Public What would all the land in Canada be worth without any population? Have you noticed how land grows in value as the number of people increase? This vital connection between the pres-

ence of population and the value of land is one every intelligent farmer should under-stand. If you are interested in the land stand. If you are interested in the land question **THE PUBLIC** will probably be invaluable to you.

An Easy-to-lay Roof for Your Barn -A Tight-locking Shingle that Keeps Out the Rain

MPLICITY in Itself is no recommendation for a roof. Bet, in
other things beling squal, you
would select the easy-to-lay roof
every time, wouldn't you?
This is ONE feature of Gealt Steel
them to the farmer. Another important recommendation is the tight-locking patented 'hook' that forms an
absolutely weather-proof surface which
neither time nor violent storms can undo.

a Galt Steel roof, about to be locked together. It will be noted that, while
extremely simple, the shingles are so designed as to 'grip' one another tightly at
both sides and ends. IMPLICITY in itself is no reco

A Roof is No Stronger Than its Weakest Point

In a "Gait" roof, all danger of leaks is avoided by our patented "lock"—the most important improvement in metal roofing in 25 years.

The best illustration of "Gait" Shingle superiority you can have, is in the fact that if a number of our shingles are have, is not be a superiority of the light of the ship of the ship

security.

But space does not permit a detailed description or a complete story of Galt Shingles. If you would learn all the facts you ought to have, before you roof your barn, you should get a copy of our splendid free book entitled
