New Sections Added Prize List for Northern Ont- ario Certified Seed Potatoes—Guelph Fair Dec. 5—11.

In view of the important seed potato industry which has been developed in Northern Ontario the Executive of the Ontario Provincial Winter Fair Board has amended Class 404 to include two sections devoted entirely to Northern Ontario Grown Certified Seed Potatoes. These sections and the prizes for the same are described as follows:—

Section No. 7.—Certified No. 1 Green Mountain Type grown in Northern Ontario—

Prizes: 1st, \$8; 2nd, \$7; 3rd, \$6; 4th, \$5; 5th, \$4; 6th, \$3; 7th, \$2; 8th, \$1.

Section No. 8.—Certified No. 1 Irish Cobbler Type grown in Northern Ontario:—

Prizes: 1st, \$8; 2nd, \$7; 3rd, \$6; 4th, \$5; 5th, \$4; 6th, \$3; 7th, \$2; 8th, \$1.

It is expected a large and representative exhibit of certified seed from the North will be shown and farmers interested in securing high-class seed stock are invited to examine it particularly. For exhibition purposes it will be peculiarly valuable. Unless the history of each potato exhibit shown at a Fair is definitely known the appearance of the seed may be misleading to the prospective buyer. The very finest exhibition sample in appearance may be quite worthless as seed since the most serious of potato diseases—Leaf Roll and Mosaic—do not in any way blemish the tuber nor render it unfit for exhibition purposes. All certified seed, however, is inspected during the growing season, again after digging, and still a third time when being loaded on cars, by qualified disease inspectors of the Federal Department of Agriculture. If it comes up to the very high standard set for certified seed it is given a certificate as Extra No. 1, No. 1 or No. 2. Extra No. 1 is not a commercial grade, being absolutely free from all disease, and is used as foundation stock in the home district. Grade No. 1 is the highest commercial grade, being practically free from disease. Grade No. 2 has a very small percentage of disease allowed. In every case the exact record of each field is on file and can be referred to by the purchaser of the seed.

The general rules governing the exhibits in the Seed Department will govern these sections and all seed exhibited will be sold at auction at 10 a.m., Wednesday, December 10th. A booth will be erected in the Seed Department of the Fair where all Northern Ontario Certified Seed will be exhibited and where general information regarding the potato industry may be obtained. All entries and enquiries should be forwarded to Justice Miller, Field Crop Specialist, Parliament Buildings, Toronto.

Testing Seeds For Farmers and Merchants.

EDITOR "THE FARMER'S ADVOCATE":
The Dominion Seed Branch with laboratories at Ottawa, Winnipeg and Calgary reported over 35,000 seed tests for the year ending June 30. The growth of seed testing in Canada is indicated from the fact that only 5,775 samples were reported in 1909. The great bulk of the work in our seed laboratories is done between September and June when each laboratory may handle up to 200 samples per day. Only ten samples are tested free of charge for any farmer or seed merchant during the season. Over this number, the service is charged for at cost.

Official seed testing is the basis of Government seed control, which in older European countries is rated as a leading Government service to Agriculture. Any country without an efficient system of seed control soon becomes the dumping ground for inferior seeds from other countries, and low-grade homegrown seeds may be sold to unsuspecting farmers. Our system is frequently referred to in other countries as being the most practical and efficient. Its importance is now being better appreciated when it is required that imported seeds are not released from bond until they are approved at the seed laboratories, and when cereal grains, flax, corn, as well as clover and grass seeds, are marketed on the basis of fixed quality seed grade standards.

GEO. H. CLARK,
Seed Commissioner.

Systematic Feeding PAYS!

Simplify your Feeding Problem by using—

Monarch Dairy Feed

It turns "boarders" into profitable producers. It is rich in protein supplied by oil cake meal and cotton-seed meal. For bulk and palatability there is bran, corn feed and barley feed. The slightly laxative quality of the oil cake meal is balanced by the tendency of the cotton-seed meal to be constipating. This combination of feeds is perfectly balanced. It means fine,

healthy stock, and better yields of milk.

Monarch Dairy Feed, while very rich, may be fed alone. Guaranteed analysis: Protein 20%, Fat 4%.

Give Monarch a trial. Order a ton from your dealer. If he does not carry it write us direct. Ask for booklet, "Getting the Most out of Dairying."

The Campbell Flour Mills Co., Ltd., West Toronto

The Salem Herd of Scotch Shorthorns

HERD HEADED BY GAINFORD MARQUIS, CANADA'S PREMIER SIRE

Write us about the get of Gainford Marquis. They have won more at Toronto and other large exhibitions than those of any other sire. We still have a few sons to offer, as well as females bred to Canada's greatest sire.

J. A. WATT

Elora, Ontario

BRAEBURN SCOTCH SHORTHORNS

150 Head

100 Breeding Females

Herd headed by Nero of Cluny (Imp.)

I have at present twelve young bulls that are now nearing serviceable age. The majority are sired by my present imported herd sire, and we guarantee them as good individually as the get of any other one sire in Canada. They are nearly all roans, and are priced to sell. Can also spare some breeding cows in calf to Nero of Cluny (Imp.).

CHARLES MCINTYRE, Scotland, Ontario

Brantford 7 miles. Oakland 1 mile. L. E. N. Electric R.R. Cars every hour.

Highland Park Scotch Shorthorns

Herd headed by Imp. Edgcote Broadhocks, one of the best breeding bulls in the Country. Imported and Canadian bred females for sale, bred to the herd bull, some having calves at foot and bred again to him. This is a choice offering. Prices reasonable.

W. C. SUTHERLAND,

R. R. 7,

GALT, ONT.

ELMGROVE SHORTHORNS, YORKSHIRES

Owing to pressure of other business I will not hold my annual sale of Shorthorns this fall but am offering privately a limited number of young cows, several with calves at foot, and also a few choice-bred heifers near calving. The most select offering I ever had on the farm and all showing in good condition.

In Yorkshires I have several bred sows; a few boars of serviceable age and some young litters. JAS. R. FALLIS, Elmgrove Farm, BRAMPTON, ONT

SCOTCH SHORTHORNS

PRESENT OFFERING:

6 imported bulls, 4 home-bred bulls, 25 imported cows with calves at foot or forward in calf. Half a mile from Burlington Jct. Phone or telegraph, Burlington.

J. A. & H. M. PETTIT

Freeman, Ontario

IMPORTED SCOTCH SHORTHORNS FOR SALE

Three imported bulls, one yearling, one two-year-old and our three-year-old herd sire; also a choice two-year-old Orange Blossom of our own breeding, and three well-bred bull calves about a year old. Would consider exchanging an imported bull for Scotch females.

R. M. MITCHELL, R.R. 1, Freeman, Ont.

Smoke
Meat
Free!

Don't Pay Big Butcher Bills!

Don't sell all your hogs, other meat and fish—and buy meat from butchers at exorbitant prices. Send for your Kirstin Smoke House. Prove, at my risk, that you can butcher a few hogs for your own table—smoke the ham, bacon, sausage—and cut butcher bills in half! Also sell to neighbors at tremendous profit. After smoking use for meat storehouse. Fly and rat proof. Produces sweeter, milder meat. Wonderful success.

Kirstin Farm Smoke House

All Steel, fireproof. Costs less than wood, lasts longer. Portable. Use in basement, kitchen or porch. Small enough to go through ordinary doors. Large enough to hold meat of 2 to 12 hogs. Smoke positively air-cooled—can't frizzle out flavor. Produces sweeter, milder meat. Wonderful success.

Write for FREE!

New BOOK FREE!

Valuable book tells how you can try the Kirstin Smoke House FREE. If satisfied with Smoke House a trial, keep it. If not pleased, return at our expense. No risk to you. 30 days to pay. Write for book, meat curing recipes, special Agent's Offer, etc. Address:

A.J. Kirstin Canadian Co.

Sault Ste. Marie Ont.

Get Clean Milk

In winter, when the cows are stabled and it is hard to keep the udders clean, clip the flanks and udders every few weeks—a few minutes will do it if you use a Stewart No. 1 Machine—then the parts can be wiped in a jiffy and the milk will be clean and free from dirt. Clips horses also. Get one from your dealer, or write direct to us.
