

Monarch Stiff-stay Fence.

THE FENCE WITH NO HIDDEN WEAKNESSES.

Why do you see so many broken fence wires? Nine times out of ten they are the result of hidden weaknesses—weaknesses the purchaser was unaware existed. These weaknesses are result of inferior grades of wire—unduly kinked laterals—severely applied locks. By severely applied locks we mean locks driven *directly* over the place where stay

and strand wires cross. This tremendous direct pressure bruises and injures the wires—this is quite apparent if you remove the lock, and is sufficient to make the wires an easy prey to frost, snow or heavy strains.

Now, in the Monarch, the lock is applied *diagonally* with the strand, which means there is no pressure applied at the crossing. And the ends of lock are neatly hooked over the strand wires. Thus the Monarch lock is prevented from spreading or loosening. And the fence is made of best grade No. 9 Hard Coiled Wire. Also, there is no undue kinking of laterals.

No hidden weaknesses in the Monarch fence. It will stand the most severe tests of weather, animal or man. Catalogue free if you'll ask for it.

The Dillon Hinge-stay Fence.

It's impossible to bend the stays of the Dillon. They are hinged to the strand wires. They give or swing under pressure, and spring back to original uprightness when pressure is removed. The hinges cannot slip along the laterals, as the laterals are crimped at the intersection. A series of coils in the strand wires amply provides for contraction and expansion. The Dillon Hinge-stay Fence is not alone unique, but positively unsurpassed as a lasting fence investment. It is made in both medium and heavy weights. Shall we send you our complete fence catalogue, describing both the Dillon Hinge-stay and Monarch Stiff-stay Fences, also ornamental fences and gates? It contains fencing facts you'll be glad to know about.

MORE AGENTS REQUIRED.

Energetic men will find our line of fencing and gates the best-selling on the market. No other agents have two such superior and different fences as the Monarch and Dillon. In comparison with other agents, our representatives have double the chances of securing an order. Just write for agency particulars.

Note the Gale-proof, Closed-end Sidelock and the continuous overlapping and interlocking bottom lock which are found only in the new

"GALT" SHINGLES

This ingenious and yet simple and easy-fitting construction makes a "Galt" Shingle roof absolutely weather-tight. It prevents wind from driving rain or snow up and out of the top end of side lock, as so often happens with ordinary metal shingles. There is not even the smallest opening—this cannot be truthfully claimed for any other steel shingle.

The material is the Best British Galvanized Steel embossed in a bold Gothic Tile pattern—a thing of beauty and of joy forever. Catalog "B-3" gives complete details of this newest and best shingle.

THE LOCK

The illustration demonstrates the phenomenal gripping-strength of our lock. Under the most unusual strain it never gives. It is known as the lock that can't slip; the lock that un-failingly holds the wires in their correct position.

CAN'T SLIP

Our Free Catalogue

will tell you more about our can't-slip lock, and about the superior high-carbon, hard-drawn steel wire from which Maritime Wire Fence is made. Address the card as follows:
