Letter to the Editor.

Mildmay, July 8, 1899.

DEAR MR. EDITOR

If you will allow me the space in your valuable columns, I will endeavor to remove some of the misunderstanding that appears to exist in the minds of some of the good people of Mildmay with regard to the "Park" and the "doings" of the Mildmay Athletic Association. In the first place it is well to ascertain who constitute the M. A. A. According to its By-laws all persons in Mildmay who pay 25 cents a year into its Treasury are entitled to become members, and to vote at the annual election of officers. At present the only active members are the Board of Directors whose names it is not necessary for me to mention as they are all well known citizens of Mildmay who have been doing their utmost to lift Mildmay out of the rut of inactivity and despond in which it has been moving during the last few years. It was the intention of the Association, with the money which had accumulated to its credit in the hands of the defunct Carrick Financial Company, some \$500, to purchase suitable grounds for the purpose of holding sports on holidays, and to enable the younger generation to exercise their limbs in the several games which are practiced to develop them into sturdy and healthy citizens, but the collapse of that institution involved the Association in the general ruin and despair which overtook the village then and has hung like a pall over it ever since. It therefore became necessary for the Association to start afresh and a meeting was called for the purpose but the people took so little interest in the matter that the meeting was practically a failure. The old Board of Directors however, determined to continue the good work, and after discussing the matter decided to ask for subscriptions, and with the money received purchase grounds at once, thinking that their money would be safer when invested in this way. As the Association was not incorporated, it was necessary to give the deed of the property to trustees to hold in trust for the Association, which now practically meant the village, and Messrs. E. N. Butchart, H. Keelan and Dr. Wilson, who had been previously elected as a finance committee to take the place of the former treasurer, were appointed trustees to take the deed. They are three good representative citizens, the first two having large families and the Dr. being very hopeful. The Board of Directors have met with very fair success in their call for subscriptions, and also in getting the assistance of many farmers towards improving the grounds. But there appears to be some persons in Mildmay who not only refuse to lend a helping hand but make it their special duty to throw discredit upon the whole scheme and it is to those mistaken persons that this letter is specially addressed, for I do not think that they are wilfully hostile to anything which is for the benefit of the village. As the Board of Directors, and especially the Trustees, are much discouraged by the evil reports which are being circulated to the effect that they are working for their own pockets only they all desire to be relieved of their duties and a new Board of Directors and new trustees put in their place. If the people of Mildmay wish to show that they take an interest in the welfare of their village let them take hold of the work which the Board of Directors have begun and the present Board will gladly step out of office and heartily co-operate with any new Board which may be elected to fill their places. Not wishing to take up too much space I will bring this letter to a close. Thanking you in anticipation.

It is said that England's Queen shows great sympathy for the blind; that while "she reigns over an empire on which the sun never sets," she does not forget those of her people for whom the sun never rises. The college for the blind at Norwood has just received from her a check for £100.

Listowel, Ont., July 4.—Nelson Dixon, 60 years of age, committed suicide by hanging himself with binder twine to a beam in the barn back of the house last night. Mr. Dixon had been a resident of Listowel for twenty years. A wife and large family are left. Despondency is supposed to have been the cause of the act.

There are cases where Mark Twain's advice "when in doubt tell the truth" would be productive of good, but in the majority of instances it would prove very unsatisfactory. With a large and important element it would, if acted upon, simply mean the transference of doubt to the hearer. With another large and important element the very decision to tell the truth under such circumstances would be the means of dispelling even the shadow of a possible doubt. On the whole, the safest plan is to tell the truth at all times and when in doubt lead trump.
