

GOTHAM OF TODAY

A Racy Picture of the Great American Metropolis.

GREAT MARVEL OF THE CENTURY

The Stage and its Attractions—Henry Irving and Miss Ellen Terry—The Adaptation of Thackeray's Vanity Fair—Venice Never Equal to New York.

New York, December 14, 1890.

Greater New York is gayer New York now. I have never seen the American metropolis to greater advantage than in the closing months of the century. It is in good sooth a century of marvels, but New York is the greatest marvel of all.

When the ambassador of Pyrrhus returned from the Roman senate to his master's camp, he reported that he had seen an assemblage of kings; Ajax and Agamemnon and Hector and Ulysses are here, not with crowns upon their heads and swords and bucklers by their sides, but pursuing avocations as noble and achieving greater things than the mightiest heroes of antiquity ever accomplished.

The world has never seen anything comparable to this city of New York, and here are its builders. In other days I have strolled through the grandest palaces built by kings, but there never has been a palace built that equals the palaces built by New York to shelter and entertain her citizens and her visitors.

On the Music Hall stage there is nothing new and nothing worthy of commendation. Anna Held is playing to crowded houses every night a species of Moulin Rouge light opera, and all the other music hall theatres are full to overflowing, but there is nothing worthy of special notice.

But enough, and let me tell some gossip of Gotham and of Bohemia. Henry Irving and Ellen Terry had a reception in New York that conquerors might envy. I saw them in Robespierre for several years, and to look at them again, to watch their incomparable portrayal of a mighty past, and to listen to those voices that thrilled and charmed in more romantic days, was to me a source of ineffable pleasure.

Julia Marlowe is playing "Barbara Freitche"—a tragedy of the Civil War. I have never seen the lovely actress, so winsome, so charming, so full of graceful movement, and in finer artistic form than in this play. The play itself is almost worthy of the Augustan age of English literature.

I wish dear old Thackeray were alive, and that that dearest, kindest and best of all the great literateurs of our century could see his Becky Sharp live and throbb and speak and act as Mrs. Fiske makes her do upon the New York stage. This is the greatest adaptation of the age. It is Thackeray's "Becky" to the roots of her hair, and side by side, fully parallel to Mrs. Fiske's great creation is a Major Rawden Crawley that is as true to life and to the original as anything I have ever yet beheld.

And yet another adaptation has filled New York with delight and enthusiasm. I mean William Gillette's portrayal of Sherlock Holmes. From the going up of the curtain until the play ends there is not a moment when the movement lags, and it winds up in as charming a love scene as I have ever looked at.

GRAND FORKS INTELLIGENCE

PROVINCIAL GOVERNMENT PETITIONED FOR A BRIDGE.

Sketch of the Career of Cariboo Cameron, Whose Remains Will Be Conveyed to Glenora, Ont., for Interment.

Grand Forks, B. C., Dec. 16.—[Special.]—Dave Evans has resigned the superintendency of the Karthquake to accept a similar position with the Hartford, in Wellington camp.

A petition asking the provincial government to contribute \$2,400 towards the construction of a bridge over the north fork of the Kettle river, near the mouth of Pass creek, 14 miles from Grand Forks, has been extensively signed in various Boundary towns.

The other day I read a critique on John Drew that described him as the star of a great family of actors. That is the greatest compliment that has ever been paid John Drew. John Drew's father and his sister George Drew Barrymore achieved histrionic triumphs that John Drew has never yet attained.

Ben Hur has found its way to the stage. The play like the book is weak, but the staging is the finest ever seen in America. As a spectacular show it has stormed New York, and the house is sold out months ahead.

On the Music Hall stage there is nothing new and nothing worthy of commendation. Anna Held is playing to crowded houses every night a species of Moulin Rouge light opera, and all the other music hall theatres are full to overflowing, but there is nothing worthy of special notice.

But enough, and let me tell some gossip of Gotham and of Bohemia. Henry Irving and Ellen Terry had a reception in New York that conquerors might envy. IN AND ABOUT GREENWOOD

ROAD TO WHITE'S CAMP HAS BEEN ALMOST COMPLETED.

Activity in West Fork Mining Properties Still Continues—Work being Prosecuted on Meyer's Creek—Other Notes.

Greenwood, B. C., Dec. 15.—[Special.]—The road to White's camp, which has been in course of construction for some weeks under the auspices of the government and the citizens of Greenwood, is now about completed.

The Alhambra theatre, owned by Brantham & Co., is about completed, and arrangements have been made for the opening on the 16th. The management has engaged Henderson and Ross and a company of specialty artists for the occasion.

James Dale, one of the owners of the Carmel, west fork, came to Greenwood on Monday, and on Monday morning received the first payment on the bond of \$25,000 from the Bunker Hill and Sullivan Milling and Mining company, Coeur d'Alene. The company has had a force of six men at work all summer prospecting the claim and sinking a shaft.

Editor Miner:—The critical labor situation in the Sloan district, and the uneasy feeling, more apparent lately in Roseland, are said to have been largely caused—and certainly aggravated—by the Miners' unions preventing contract labor.

George B. Naden, of the Bealy Investment company, and H. T. Ceperly, Vancouver, have just returned from a trip to Kruger mountain, Kereemos, where they were inspecting the Division, which has been proceeding for some time. A shaft was sunk 30 feet and a crosscut was made to the lead. They are now sinking on the ledge. A force of 12 men has been at work, and it is expected that work will continue all winter.

Mr. Stevenson exhibits some quartz that is literally bespattered with gold. Purchased the Club Stables. Mr. Harry Mackintosh and associates, yesterday purchased the Club stables. They already own the Montana stables, and the intention is to consolidate the two.

GREENWOOD INTELLIGENCE. Mineral Development in Progress in the Boundary Country. Greenwood, B. C., Dec. 14.—[Special.]—A bylaw to grant a bonus of \$3,800 to the B. C. Copper company smelter, Greenwood, will be voted on the 28th December.

Mr. Harry Mackintosh was the first depositor in the new bank of Montreal. He deposited \$1,306.65 when the bank opened for business in its new quarters.

GRAND FORKS NEWS.

A Music Hall to Be Built—Sampling Works May Be Established.

Grand Forks, B. C., Dec. 13.—[Special.]—C. M. Rosendale of Nelson, B. C., is considering the advisability of establishing a music hall in Grand Forks. During a recent visit here he inspected various sites, and before his departure announced his intention of returning within a few days.

Alexander Dick, the well-known Roseland capitalist, made a complete examination last week of the Pathfinder mine on the north fork of the Kettle river. A deal for the purchase of the property, it is understood, is impending. Mr. Dick stated that it would be premature to give any details at this juncture.

Grand Forks will have a music hall early in the New Year. The franchise has already been secured, and the work of constructing suitable buildings will be commenced without delay.

J. P. Graves, general manager of the Grand Forks company, and the Old Ironsides and Knob Hill Mining companies, has left for Montreal, where he will spend the next six weeks.

Two Dollars a Day

ORE OF GOOD

Development of the Cascadine Good Progress

LATE REPORT FROM Mr. James Baker and Associates Smelter in East Kootenai the Work on the Mystery Notes.

Mr. Stephen Brailo, who the development work on the Cascadine good progress, during the past few days, has been confined to the tunnel, which has been driven about 800 feet.

It is to be driven about 800 feet. The ledge is three feet wide, but higher up the hill it is wider. It is expected that the work will be encountered in the tunnel, which has been driven about 800 feet.

Assays made of the tunnel show that it is rich in silver, or about \$4.80 in silver, or an assay of ore from a point on the surface 200 feet from the tunnel shows \$7.20 in silver, or to the ton. The Cascade is than ever and those who feel certain that it will continue to be a source of wealth.

The Norwegian Mountain shaft sunk on a five-foot shaft in Roseland, a part of the Cascade, a part of the extension of another 100 feet after the shaft is sunk on a promise which is six feet in width, there is a pay streak 18 inches in length, which is four feet in width, and is a payable grade.

Work is progressing on other properties in that outlook is that it will be a great deal of activity in the district, and it is expected that the work will be continued for the balance of the winter.

Good News From the Acting Secretary Edward O'Connell Free Gold Mine, which is better open to the public, which is four feet in width, and is a payable grade.

Is Pushing the

Mr. E. B. Gillespie

with his family from Peace has been for the past eight there he was foreman of Hewitt Mining & Development which owns the claims of a mile west of the town of Peace. The development consists of a shaft 200 feet and the ledge is on both ways for 80 feet and a half feet wide and copper, and the ore is estimated to be worth \$20 to the ton. A shaft to a depth of 150 feet depth. The company has claims and is energetically developing work.

A Smelter for East Mr. J. E. Sauer has been absent for ten days in which he went for the mining properties in which he is interested. On the Pay Roll three shafts are now in progress. The tunnel is now in progress. It is seven feet in width and is a high grade galena. The people of the district are very interested in the work. The company has claims and is energetically developing work.
