

The report presented by the directors to the shareholders in the Le Roi Mining Company at the annual meeting, held in London on Thursday last, must have been a gratifying one. The profit for the year ending June 30th was stated to amount to \$400,000, while as an indication of the satisfactory results that are being obtained, it was stated that the profits for January were \$50,000. The property, in the hands of a business management, is now beginning to show its intrinsic value. While the mine is earning substantial profits, the management is not neglecting the development of the property.

WILL BE 500 STRONG

LOCAL MINING ASSOCIATION
NOW HAS 450 MEMBERS.
SENDS FULL DELEGATION TO VICTORIA CONVENTION NEXT WEEK.

From Thursday's Daily. The Rossland branch of the Provincial Mining Association of British Columbia started the new year last night under most propitious circumstances. The paid membership for the new year is already 450, with indications that this will be readily increased over the 500 mark. As reported last night the membership has been recruited to date as follows:

From Le Roi mine.....105
War Eagle-Centre Star mines.....75
Rossland Power Company.....75
City.....195

In addition to the foregoing a number of members have been secured from the employment of the Le Roi mine. A score is the maximum allowed for any association, so that Rossland's excess membership over 450 will not secure greater representation.

At last night's meeting the following list of delegates and alternates was approved: Dr. Sinclair, B. B. Kirby, Paul S. Coulter, Alfie McMillan, Smith Curtis, Francis A. Hewar, A. S. Goodere, W. B. Townsend, Richard Marsh, Hon. G. Stewart, Fred Demuth, Patrick Bennett, Astoria, Sorenson, Andrew G. Larson, R. A. Laird, M. R. Galusha, Rupert Bulmer, Dan Thomas, Britton Duke, Arthur Pendray, Philip James, Campbell, Harry G. Seaman, H. H. Johnson, A. B. Mackenzie, S. F. Parrish, George T. West, Thomas H. Reed, Robert H. Anderson, William L. McDonald and F. R. Blochberger.

Some of the foregoing gentlemen will be unable to attend the convention, and a committee was appointed as follows to ascertain exactly who can go and supply the necessary credentials: H. G. Seaman, Britton Duke, A. B. Mackenzie, A. McMillan and A. C. Galt.

To reach Victoria in time for the opening session of the convention the delegates will require to leave Rossland on Friday evening, if going by Canadian Pacific, or on Saturday morning if travelling by the Victoria and Northern. Both lines give a single fare return for convention week. It is understood that delegates will be reimbursed to some extent for the travelling expenses incurred.

The meeting was largely attended and animated. A. C. Galt occupied the chair and debated the various points of interest lasted for two hours and a half.

In opening the chairman took a quarter of an hour to review the work of the association and to emphasize the good results attained, even though the majority of the association's representatives had been absent from the convention. He also directed attention to the fact that the central organization's finances had been somewhat mismanaged and that the president of the association, Mr. Koen, with Mr. Hobson, had personally undertaken a considerable amount of work which had been distributed among the branch organizations. Rossland's share of this burden was \$173, and in fairness and justice to Mr. Koen and Mr. Hobson, neither of whom was responsible for the mismanagement, the Rossland branch would have to do its best to pay the balance of the deficit. In this regard Mr. Galt then reviewed the situation in respect to the two per cent mineral tax.

Smith Curtis paid a warm tribute to the work of the association. Personally on the floor of the house he had thrashed out the two per cent tax question for four sessions, and the most encouragement he ever secured was at the last session, when the president of the association had agreed that the operation of the mineral tax should be amended. Since the association had gone into the subject he knew of several members of the legislature who took a new view of it, and he was perfectly satisfied that ere long the operation of the tax would be altered to distribute the burden equitably. Mr. Curtis was especially felicitous in his remarks as to the utility of the association in the Fernie strike settlement. He, however, regretted that if nothing else had been accomplished the organization had entirely justified its existence.

A. S. Goodere urged the association to come to some definite understanding as to the proper method of taxing the output of mines before asking the government to legislate or amend the present legislation. Mr. Kirby took the stand in reply that the legislature was elected for this express purpose, and that the association should confine itself to insisting upon the inquiry of the taxation and leave the government to legislate or amend the law. In the past various suggestions had been made to the government along this line, but the politicians came back with the old cry "give us a substitute," which was intended only to cast disrepute into the mining industry and stave off the day when the government felt compelled to deal with the subject in the house.

of little ones come when least expected, and a dose of the Tablets promptly given may save a precious little life. Baby's Own Tablets cure all the minor ills of little ones, and an occasional dose will prevent sickness. They are guaranteed to contain no opiate or harmful drugs. The Tablets are sold by all medicine dealers or sent by post paid at 25 cents a box by writing The Dr. Williams Medicine Co., Brockville, Ont.

UPSETS OLD ORDER

MAYOR CLUTE RERARRANGED STANDING COMMITTEES OF COUNCIL.
DULL MEETING OF CITY COUNCIL—MAJORITY IS REVERSED.

From Saturday's Daily. Last night's session of the city council was entirely free from the acrimonious features that have been a feature of council meetings to date during the current year. That the council was evidenced in the course of the session. Two divisions were taken, and in both the former majority element came out in the minority.

The real feature of the meeting, although it passed through without special comment, was the action of Mayor Clute in handing down to the council a new slate for standing committees. Under a section of the Municipal Clauses Act the mayor is empowered to name these committees, and no resolutions are required by council. At the initial meeting of the board Mayor Clute did not exercise this prerogative, but last night he did so, the opportunity being presented by the recent changes in the personnel of the board. The new committees as named by the mayor are as follows:

Finance—Aldermen Hamilton (chairman), Stout, Martin and McDonald.
Fire, water and light—Aldermen Rolt (chairman), Stout, Lockhart and McDonald.
Public works—Aldermen Martin and McDonald.

Every member of council is placed on two committees. The mayor is ex-officio a member of each committee. The standing committee is taken by Alderman Hamilton, whose ripe experience in the council eminently fits him for the position. Alderman McDonald is succeeded as chairman of the fire, water and light committee by Alderman Rolt.

Toward the close of the meeting Alderman McDonald asked if this slate was subject to ratification by the council and why his wish had altered the chair and debate the various points of interest lasted for two hours and a half.

In connection with the action against the corporation by John Boutilhe to recover \$13.75, it will be remembered that in common with all city officials Mr. Boutilhe, when police magistrate, received free water. Ex-Mayor Dean decided that this was not right, and the last check received by Mr. Boutilhe from the city was docked to the extent of \$13.75 for these water rates. Mr. Boutilhe has commenced suit in the county court to collect the shortage, and he paid the amount. Alderman Hamilton moved that the solicitor be asked to advise upon, especially as the matter could not be quoted as a precedent and was of a trifling nature. The great fault with the council had been to permit the matter to reach its present stage without action of some description being taken.

On a division Alderman Hamilton, Rolt and Lockhart and the mayor voted in the affirmative, with Alderman McDonald, Stout and Martin in the negative.

The second division came when Alderman Martin and McDonald brought in the motion of which notice had been given a fortnight previously. The informality thereby arising was waived, and the motion put to the meeting. Alderman Hamilton took occasion to state that he was opposed to the motion because it had nothing to do with the council, and its passage would stultify the board. The question of the chief magistrate's qualifications lay wholly with the courts, and any taxpayer could take steps to settle any doubt that might arise in their minds. Mayor Clute said he would promptly ruled the motion out of order had it referred to any member have himself. He would vote against it, however, because it was merely the effort of someone with a grudge to gratify the grudge at the expense of the public. Anyone doubting his qualifications has the right to go into the courts, but he would not permit such parties without protest to saddle the taxpayers of Rossland.

A division was then taken with the mayor and Alderman Hamilton, Rolt and Lockhart on the negative and Alderman McDonald, Stout and Martin for the affirmative. The motion was lost.

before the Le Roi scored the second and decisive goal. In the course of the game Levaner, of Hunter Bros., was painfully hurt in a collision with George Fraser of the Le Roi team. Levaner's leg was so severely injured that it was feared a fracture had been sustained. Later it was reported that a severe sprain was the extent of the injury. The player was taken to the St. Mary's hospital, and Fraser went off to balance the team.

The losing team had the best of the play for a considerable portion of the game, and Le Roi was only saved at many critical stages by the really clever work of the bowlers between the posts. The Le Roi goalkeeper demonstrated the possession of a remarkably quick eye, and he relieved the situation at various stages when it seemed that the attack by Hunter Bros. forward line would be successful. Terman's deadly lifter only got into full view when the bowler had secured Hunter's sole tally. It was Terman hit that the mine boys feared more than aught else in the game.

The game played a strong and dogged game, although all hands were desperately tired before the long game closed. Early in the play, when the teams were fresh, the match was quite fast.

At least 3000 changed hands on the match. Bets were laid at even on both teams, and the result indicated that the sportman had been deceived by accuracy, for it was anyone's game to the last moment. The teams were as follows:

GOALS
Fraser.....1
Hicks.....1
Terman.....1
Lee.....1
Hattrup.....1
Levasseur.....1
Bowers.....1
Point.....1

The Miner has failed to run to ground the report that the Le Roi and Jockeys' teams would meet again at an early date. It is supposed to believe the report is unfounded. In the opinion of most citizens it is a pity that the two teams, who are rivals of the most nature and moment further discussion by bringing on new contests when the parties are tired. Let the matter drop. Let the matter drop. Let the matter drop. Let the matter drop. Let the matter drop.

CATTLE KING HERE

P. BURNS OF CALGARY SPENDS COUPLE OF DAYS IN ROSSLAND.
TALKS OF MATTERS IN ALBERTA—MANY SETTLERS ARE EXPECTED.

The following new companies have been incorporated:
Butler Freighting & Towing Company, Limited—Capital \$25,000 in 250 shares of \$100 each.
M. W. Watt & Company, Limited—Capital \$125,000 in 1250 shares of \$100 each.
Queen-Dominion Mining Company, Limited—Capital \$50,000 in 500,000 shares of \$1 each.
Richard Hill Mining Company, Limited—Capital \$50,000 in 500,000 shares of \$1 each.
Spruce Creek Power Company, Limited—Capital \$150,000 in 150,000 shares of \$1 each.
Sty Glass Mining & Development Company, Limited—Capital \$50,000 in 500,000 shares of \$1 each.

"The war in the Orient may have the effect of enhancing the prices of live stock in Alberta, especially for horses, but up to the present time this has not been noticeable. Reports have been afloat as to the operations of buyers for the Russian and Japanese armies, but you may safely put these down as incorrect." This is from P. Burns, the Calgary cattle king and head of the great firm of P. Burns & Co. Mr. Burns is in the city for a couple of days, with Blake Wilson of Nelson, manager of the P. Burns company.

"Whether the prices of live stock are inflated because of the present war," continued Mr. Burns, "is a large measure upon the duration of the conflict. If the struggle is long maintained and other countries are involved there is certain to be a great demand for live stock, particularly in large measure upon the duration of the conflict. If the struggle is long maintained and other countries are involved there is certain to be a great demand for live stock, particularly in large measure upon the duration of the conflict. If the struggle is long maintained and other countries are involved there is certain to be a great demand for live stock, particularly in large measure upon the duration of the conflict."

Asked as to the probability of a large influx of settlers into Alberta during the present year, Mr. Burns said: "We are certain to receive many settlers. The Edmonton district will receive many of these, while Southern Alberta and the Calgary and Lethbridge districts will also profit extensively by the arrival of home-seekers. Generally speaking, however, the new blood will be fairly well distributed over the province. One effect of this settlement of the country will be to restrict the ranges. I believe that many of the very large bands of cattle now grazing in Alberta will be divided up into smaller herds, and that this will actually improve the quality of the stock, because in smaller bands the cattle will receive better attention than is now the case. The number of cattle will also be increased. A feature of the settlement of Southern Alberta, and the number of Mormons coming in. A considerable number of the followers of Joe Smith have already located in the district, and they have proved to be excellent settlers. The Mormons are hardy, frugal agriculturists, understand their business thoroughly and flourish under the climatic conditions of the province, and are sending for their friends to an extent that will build up the district substantially. They do not practice polygamy."

Mr. Burns has extensive mining interests in the Rossland camp, and is taking a lively interest in the progress of the mining industry here. He is undecided about actively developing the properties in which he is interested this year, stating that much depends upon the matter of securing lower treatment for the ore which his properties will produce.

INDUSTRIAL HOCKEY LEAGUE

CUP GOES TO MINE MEN.
CONSIDERABLE MONEY WON AND LOST ON LAST NIGHT'S FINAL.

From Saturday's Daily. The Industrial Hockey League championship and trophy went to the Le Roi team last night after a hard fought battle with the Hunter Bros. team. The game was easily the best of the series, and the men from the mine scored victory only after a hard struggle. At the close of the 30 minute end the score was tied, and four extra allowances were required
