

THE CITY SCHOOLS.

The Semi-Annual Public Examinations.

A Very Good Showing of Work Reported for the Half Year.

The semi-annual public examinations of all the city schools excepting the Collegiate School, was held yesterday. This is a departure from the customary plan which has been to extend the examinations over several days. Among those who attended at the different schools were, Chief Superintendent Crockett, Principal Mullis, Rev. J. C. McDevitt, His Worship the Mayor, the City Clerk, Alderman Parker, Messrs. J. L. Inghes, P. McPeak, J. G. McNally, and others.

The examiners expressed themselves as much gratified with the results of the examination, and the list of honor certificates given below shows that in all the departments

High Proficiency was obtained by the pupils. The maximum standing attainable was 500, and the honor roll shows that Ella Budge has the distinction of being the only pupil in all the schools to achieve it.

An Interesting Event took place. Mr. C. Foster, who has been connected with the school for a few months, retired at the expiration of the term, and the pupils signified their appreciation of his work, by presenting him with a handsome case, and the following address, to which Mr. Foster made a suitable reply.

To Bertie C. Foster, Esq., A. B.
Dear Sir:—It is with regret that we, the scholars of the Collegiate School, have heard that you are about to leave us.

Although holding the position of teacher in this school for so short a time, you have won the esteem of all the scholars by your earnest endeavors for our advancement, your thorough work as a teacher, and the deep personal interest which you have taken in each one of us.

Hoping that you will be as successful in the profession which you are about to enter, as you have been in teaching, we have much pleasure in presenting you with the accompanying case, and beg that you will accept it as a small token of our affectionate regard.

John B. Eutherford,
Robert Randolph,
Committee on behalf of the Scholars.
Fredericton, Oct. 5th, 1884.

Andover Notes.
At the annual school meeting held here on the 9th, Rev. Leo A. Hoyt was elected Trustee in room of B. W. L. Tibbitts resigned. \$500 was voted for school purposes, and Mr. R. G. Day was reappointed Principal of the Grammar School for the ensuing year at a salary of \$700 per annum.

A number of our leading citizens propose starting a moving room in this place shortly, which is a move in the right direction.

Mr. W. A. Perley of Winnipeg, formerly of this place, is at present attending a meeting of the Locomotive Brotherhood in San Francisco.

It is understood that the N. B. Railway propose removing their office to Perth Centre shortly, which causes some dissatisfaction among our merchants.

Mr. Wm. Mastin, an old hunter on the Tobique, met with some injuries while preparing for this season's campaign. While attempting to remove a rusty charge from an old gun, by means of a red hot ram-rod, the charge exploded, grazing the side of his face.

Kupke Bros. have removed into their new carriage factory which is an ornament to our town.

Mr. James McLean of Tobique, who accidentally shot himself while shooting partridges some time since, died from the injuries received.

Change of Hour.
The city schools open on Monday at half-past nine instead of nine o'clock.

THE WARLIKE STUDENTS.

What has been done in Fredericton and what is doing at Windsor.

On Thursday the students of the Senior and Freshman classes at the University attended lectures as usual; but on Friday morning the Seniors sent two of their number to Dr. Jack to say that the class could not attend lectures while their unknown punishment was hanging over them. The Board of Discipline was immediately convened and an order was made to the effect that the conferring of degrees on the Senior class should be deferred for six months after the close of the Academic year, that Scholarships in the Freshman class should be suspended and that no Classical Scholarship should be granted this year. The Senior and Freshman Classes thereupon met and decided not to again attend lectures, but to sever their connection with the University. During the afternoon some of the Professors endeavored to effect a reconciliation with the Junior Class, and an offer was made to remit the rustication on the condition that hereafter there should be no class combinations against the Faculty. Many of the Juniors were disposed to agree to this and to return to lectures, but after a conference with the other classes a determination was arrived at to stand firm in the position they had taken. This is how the matter rests at present.

This morning the Faculty announced that the Juniors are reinstated provided they accede to these two principles. First, non-interference of one class in the punishment by the Faculty of another class; second, suppression of class meetings during lecture hours. It is also announced that the suspension of scholarships only means that their payment will be deferred for a year.

The students received the following telegram last evening from the students of King College, Windsor:

Windsor, N. S., Oct. 31st, 1884.
Students of U. N. B.—Victory, all unpopular Professors to be removed as soon as possible. We admit your determination. Students of U. N. B. are not in bondage.

The Difficulty at Windsor.
Kings College at Windsor, N. S., has been in a state of disorganization for some days, but the difficulty there is of a different kind. The Faculty there are in a dispute amongst themselves and the students have taken sides against the President. They went so far as to burn the President in effigy, and when Prof. Debonnam appeared before the students he was greeted with groans. Prof. Kennedy so far met the approval of these "new tyrants" that when he comes out of his lecture room the students sing, "For he's a jolly good fellow."

Our Windsor correspondent telegraphs us to-day as follows:—

Some of the statements in the Halifax papers of to-day in reference to the student's apology are untrue. The students did not apologize, but sent in an expression of sorrow for the scandals which interfered with the success of their plans for their College. They have not given up the offenders and are firm in the stand they have taken. Before taking further action they await the decision of the Board of Governors on their memorial, which is to be considered next Tuesday.

The Club Rooms.
To the Editor of THE GLASHER.—

Sir:—The person signing himself club member seems to think that in your writing about clubs that you have left a bad impression upon the public. In my mind he is entirely mistaken. The clubs and the club members have left a bad impression not only upon their employers but upon many fathers and mothers, for where is the young man who will keep good hours if he belongs to a club? You find such young men going home at all hours of the night and if they are not soaked in rum they certainly are in cigar smoke, which is the next step to it.

Now, Mr. Editor, the club young man says it costs nothing; but let the father or mother ask this young man to buy some hard wood to warm the house, and ten chances to one he will get them lath edgings or some worthless stuff of the sort, and tell them that he cannot afford better, for of course he must keep up appearances in the club, and this same club member says that if the miser thinks his bill is swarting, well, it is a mild word, but he evidently knows the meaning of it, for perhaps it has swart pretty often for his benefit; and then again he, this club member says that "if the employer think that the clerk is robbing his master's till," (now mind you, Mr. Editor, see how plain he is "robbing his master's till.") Certainly this club member appears to know how it is himself, or some of his pals have been posting him. He goes on to say, let them, that is the masters, discharge the clerk. Oh no, Mr. Editor, the employers won't do anything of the kind. They simply say when the time comes round that they don't think that they will want so much help next year, and so out goes the club man.

(Special to Glasner.)
LONDON, Nov. 1st.—The House of Commons last evening was mainly occupied in the discussion of the motion of Fair Trade vs. Free Trade. In the discussion it was stated that complaints were made, that rents were diminishing everywhere and that capital was leaving England, being invested in protectionist countries. It was said that English trade is suffering from foreign bounties and protective duties. Mr. St. John's amendment to the address regretting that the sp. ech from the throne contained no reference to the agricultural and commercial depression of the country was rejected by a vote of 16 to 67.

Exciting Times at Winnipeg.
(Special to Glasner.)
WINNEPEG, MAN., Nov. 1st.—A crowd numbering 300 persons assembled last night and hanged and burned Attorney General Miller in effigy, on account of the flogging of a prominent named McDonough, for escaping from the military prison.

General Gorman would have applied the lash to his back; but he was in hiding, having received timely warning at the government offices. Premier Norway was made to promise that he would consider the dismissal of Miller and give an answer within two days. It is supposed that Miller will be dismissed. Great excitement prevails, and the 19th Battalion has been ordered out, but no collision took place.

GLASHERS.
Arrangements are being made to hold a cat and dog show in St. John on the 27th, 28th and 29th of January next.

About 11:30 p. m., on the 23rd, an alarm of fire was sounded which proved to be caused from flames being seen running up the sides of the old freight house, on the steamboat wharf, owned by the N. B. Railway, says the Woodstock Sentinel. The hose men were soon on the spot and connecting with the hydrant at the foot of Queen Street speedily had the flames extinguished. In the building at the time, was stored some sixty barrels of kerosene and oil, and had the fire made much further headway before discovery, the results might have been disastrous. The general belief is that the fire was the work of an incendiary, though for what purpose cannot be imagined.

There are large tracts of land lying between this and Upper Newburg, Carleton County, which if a road was established for carriages, would induce intending purchasers to locate there, which would be but a few miles from market, though the garden of the County, says a Sentinel correspondent.

Canterbury, York County, has a debating society in full operation, Rev. J. C. Litcomb is President.

To be Dined.
It is proposed to entertain the visiting Cabinet members at dinner on Monday night, at the Barker House. Whether the entertainment is or is not to be non-political has not been stated. It ought to be a political affair. There is not especial reason why the general public should unite in entertaining those gentlemen, although it is quite right that the members of the Tory party should do so.

Accident on the Miramichi Valley.
Mr. Odour White was jammed between two cars on Thursday afternoon, while coupling on the Miramichi Valley. It is feared he has received internal injuries. He is attended by Dr. Coulthard.

Sale of Winter Clothing.
The auction sale of winter clothing, at the Barker House, last night, was well attended. There are some very fine ulsters and suits remaining which will be sold at auction prices.

A Choral Society.
A meeting will be held, in the Mayor's office, this evening for the purpose of organizing a Choral Society. All interested in such a movement are invited to attend.

Board of Agriculture.
The Board of Agriculture is in session at St. John to-day to arrange for the removal of the stock from the City Farm to the Murray Farm.

CHIT-CHAT.

I notice that the Regent street bulletin board calls the Cabinet Ministers "Crown Officers." This is a funny blunder it seems to me for the great and only authority on military and kindred topics to make.

Suspending the Scholarships, in as much as it will make it necessary for the fathers of the students holding them to pay just so much more on their sons' account, looks to me like visiting the sins of the children upon the parents.

I am glad that steps are to be taken to organize a choral society in the city.

Winter is coming on and there will be many long evenings between now and spring, which will be unenlivened by entertainments of any sort. A good Choral Society, which would assist in developing the musical talent of the rising generation would do a world of good. As one looks around over the city the thought arises that in a few years we will be left without singers. But there are as good fish in the sea as ever were caught, and some of the young folks would, no doubt, ably fill the places of their seniors, who will probably gladly give way to them.

Supreme Court.
The following judgments were delivered by the court this morning.—Robinson vs. Herbert. The Attorney General asked for leave to amend and plead on payment of costs within twenty days from taxation. Rule accordingly.

Doe ex dem Wheaton vs. Starnack. Motion dismissed on plaintiff giving a peremptory undertaking and paying of costs up to 5th Oct. No costs of motion.

Re Walter Jenks Norfolk. Certificate filed as of record and certificate of naturalization ordered to be issued.

McDonnell vs. the Mayor of St. John. Rule absolute to set aside non-suit.

Johnston vs. Municipality of York, judgment for defendant on the demurrer.

Crawford vs. Municipality of York. The like.

The Court have made a rule that the fees under Civ. 28 shall be the same as those provided for by Cap. 119 of the Con. Stat. Court then adjourned until Friday Dec. 19th when further judgements will be delivered.

The chairman gave his decision in favor of the affirmative. After the debate, the election of officers took place; and the following gentlemen were elected: Mr. Byron, President; Mr. Stout, Vice President; Mr. Ferris, Secretary; Mr. Mahoney, Treasurer; Mr. Barry, Guard. A vote of thanks was given to the retiring officers, also to Mr. Slipp, for the able manner in which he discharged his duties as chairman. The next debate is going to be one of the extempore order.
