NEWCASTLE COALS.

You Must be Very Sure of the Quality of the Coals.

One result of carrying coals to Newcastle lies in the fact that you can get an expert opinion on them. More if the coals are a shade better than Newcastle can produce, the chances are that you will be able to sell them. The task of convincing men who know what you are talking about is a heavy one and all the more credit is due to the man or firm which can succeed.
