**LONDON, May 19.**  
 Premier Laurier is expected to arrive in London to-night. Borden, Brodeur, and Botha of South Africa, arrive to-morrow. Ward, of New Zealand, Fisher, of Australia, and Morris, of Newfoundland, are already here. The list will then be complete for the opening of the Imperial Conference on Monday. The first problem before the Conference will be whether the Press will be admitted. Several Premiers, of whom Laurier is not expected to be one, desire that the Press be admitted, retaining the option of requesting their withdrawal should need arise. Laurier's announcement of his intention to raise the question of securing greater power for direct negotiations with foreign countries, through German and other Consuls-General in Canada, is expected, because grave treaty complications have arisen in connection with the reciprocity agreement. Unionist leaders believe that by the refusal to accept the principle of Empire trade, and of co-operation on a tariff basis, England is driving Canada into a Treaty and other complications which can only end in the success of Tait's policy, and the ultimate dismemberment of the Empire. They hope that a full discussion at the Conference will show that Ministers of all the Dominions are favourable to ex-Premier Deakin's proposal in the 1907 Conference for a system of joint negotiations with foreign countries, which, they contend, would greatly increase their bargaining power, and, as full partners, by an Imperial Treaty system, raise their status among the nations, while completely safeguarding their autonomy. Such a system, however, requires the adoption of tariff preference by the Mother Country, following the example of Canada, New Zealand, Australia and South Africa.

**OTTAWA, May 19.**  
 "We have no information of that kind here," said Commander Roper of the Canadian Naval Service, today, in reference to a Toronto story to the effect that tyrannical and injustice prevailed on the cruisers of the Canadian Navy. According to the story, a young seaman, writing home, said that conditions were so bad, and food so insufficient, that there were thirty deserters in a few weeks, and open mutiny had occurred on the Rainbow. "So far as we know everything is satisfactory," said Roper.

**MADRID, May 19.**  
 The Tanager correspondent of the Herald, telegraphs that the tribunes, with the constabulary and the police, who kidnapped Kaid, MacLean some years ago, have captured the French arsenal at Acazar. The British Consul, Mr. Carleton, is said to have been killed.

**PORTLAND, Maine, May 19.**  
 The barquentine "Kingdom" of the Holy Ghost Society, has been stranded off Sangomar on the West Coast of Africa, and probably will be a total wreck, according to information received here from the National Board of Marine Underwriters of New York.

**MEXICO CITY, May 19.**  
 It is semi-officially stated that the retirement of President Diaz will take place on May 24th. Vice-President Morra's resignation will be sent by cable attested by the Mexican minister in Spain.

**GUERNAVACA, Mexico, May 19.**  
 A sanguinary battle is being fought at Gautela, twenty miles from here, between the federal garrison and the rebels. Fugitives state that the streets are strewn with dead and wounded.

**VIENNA, May 19.**  
 Gustave Mahler, the eminent composer and conductor, is dead.

Sew the skirt binding on the hem of your skirt before you press it. Pressing the goods flattens it, and it becomes difficult to feel the braid on a thin fabric without stitching through it.

**When You Feel Cross**

And are worried and irritated you can get the liver right by using Dr. Chase's Kidney-Liver Pills.  
 Life is too short to be cross and grouchy. You not only make yourself miserable, but also those about you. Don't blame others. Blame yourself for not keeping the liver right. There is nothing in the world which will more promptly afford you relief than Dr. Chase's Kidney-Liver Pills. This statement is true. A trial will convince you.  
 Mr. Theo. Ward, Lac aux Sabies, Portneuf County, Que., writes: "I have found Dr. Chase's Kidney-Liver Pills the best treatment obtainable for indigestion and impure blood. They cured me of indigestion, from which I suffered for four years."  
 "This certificate is given without solicitation, so that others may not waste their money buying medicines of no value when they can get Dr. Chase's Kidney-Liver Pills, which I am convinced are the best."  
 Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents, at all dealers, or Edmanson, Bates & Co., Toronto.

**"Standard" Bread**

made from Standard Flour is a meal in itself!  
 White Bread is not.

**ELLIS & Co.**

Limited,  
 203 Water-st.,

Just received the first consignment of the **Celebrated STANDARD FLOUR.**

What is STANDARD BREAD? STANDARD BREAD is the old farm-house loaf, made by milling good, sound, sweet, dry wheat, and taking out of the Flour the coarser bran.

STANDARD BREAD is not a patent food, or a patent bread. It is just good sound BREAD, and it is called "STANDARD" by everyone, because it agrees with a standard fixed by eight eminent medical men in a Manifesto, published first by the "Daily Mail" on January 26th, 1911, and since widely republished by the newspapers of the world.

Since the doctors first published their Manifesto, STANDARD BREAD has been welcomed everywhere. For years it has been supplied to the King and Queen at Windsor Castle, and at Buckingham Palace. It is eaten by rich and poor, by young and old, by healthy people and sick people.

STANDARD BREAD has been used for years at many of the great hospitals for Consumption.

STANDARD BREAD made from STANDARD FLOUR has been completely summed up by a Harley Street Surgeon in this statement:—

"The short stature, the pale face, the weak chests, and the general degeneracy of the present generation, are greatly due to WHITE bread diet."

STANDARD BREAD made from STANDARD FLOUR is all right.

Doctors and learned scientists have declared with no uncertain voice for the plain unadorned product of the WHEAT BERRY.

The trouble started when a man commenced to "Paint the Lily" to improve on nature.

STANDARD FLOUR contains 80 per cent. of the WHOLE WHEAT, including the germ and semolina.

The Tont Piano is a great favorite with all. It retains its clear bright tone without producing the jingle of the cheaply made piano. We put this characteristic against any other make in our great clearance and change of business sale at greatly reduced prices. CHELSEY WOODS, Sole Agt. for Nfld.—ap11.12.

**Schooner Lost on the Banks.**

Mr. H. W. LeMessurier, Assistant Collector of Customs, had a wire last evening from the Assistant Collector of Customs at St. Jacques, informing him that the banking schr. Maple Leaf, Capt. Thos. Norman, owned by D. J. & T. Burke, had sunk while fishing on Quero Bank and that her crew of 14 men had been saved. No particulars as to how the accident occurred were given in the message, but it is thought that she foundered in recent stormy weather on the Bank.

**Will Establish Company**

For some weeks past herring is found in abundance almost round the whole Island of Newfoundland, yet very few are engaged in the industry of it, except in Bay St. George and Bay of Islands. It is a great pity that something could not be done to give an impetus to the prosecution of the herring fishery. We learn from a business man of Water Street that recently no less than 4 English firms made enquiries about No. 1 pickled herring, offered to take considerable quantities and offered \$5 per barrel. This has impelled certain young and energetic men to try something as regards the curing of these fish, and a company will be formed for the purpose, and shares will be sold to people all over the country.

**Harbor Grace Notes.**

The trouting season is with us once more, and this morning several young men with the necessary apparatus left by train for New Harbor Barrons to tempt the finny tribe.

Mr. A. Granville, of Rocky Pond Road, is going to stay home from the Labrador to attend to his ground this summer. Seeing everybody taking an interest in farming, he says he will give up the Labrador fishery. Mr. Granville is 85 years of age, and has been continually engaged in the Labrador fishery for 73 years. The first time he threw a line overboard on the coast he was only 12 years old, and he caught a pair of fish; but he says he has caught a good many pairs since. He is still quite hearty, as is also his wife, who is 86. We wish the old couple many years yet.

We could not help remarking the very necessary band of citizens who were present at or arrived about the time the burglar was captured at Strapp's pharmacy on Wednesday night at 11.30. First were two policemen, limbs of the law, to see the man got fair play; a doctor to prescribe and a druggist to fill the prescription; a photographer to take a photo of the prisoner, and a reporter to take that and an account of the attempt at burglary and pass it along to the Telegram. Last, but by no means least, a minister to advise him spiritually, which no doubt the young fellow badly needed.

A number of young pigs, imported from Truro by the Agricultural Society, arrived by yesterday's train. They are of the best possible breed, and it is the intention to have them given to competent people who will keep them for a specified time and have their offspring distributed about to any person desirous of getting a good animal. It is generally understood that there is money in pig-raising, and our people should go more into the business.

The man George Perry, who was before the court to-day charged with breaking into Strapp's pharmacy on Wednesday, was sentenced by Judge Oke to six months in the Penitentiary, and as there was another case against him last week, when he was fined \$10 or one month, and which his master for the summer had gone security for, he would now be sent to the "Pen" for the full term of seven months. The case against the other man, James Griffin, an accomplice, was dismissed, he apparently not knowing where Perry had gone when leaving him on Harvey Street.

CORRESPONDENT.  
 Harbor Grace, May 19th, 1911.

**Lecture by Dr. Tait.**

Dr. Tait continued his lecture on "Air and Ventilation" at the Board of Trade rooms last night. He demonstrated the effects of breathing dust laden air, coal gas and foul air in a room. Dr. Tait described the difference between town air and country air, between sea breezes and land breezes, and explained how carbonic acid can be detected. The lecture was one of the most interesting of the series and all who attended were highly pleased. Next week the doctor's lecture will be on "Water."

**Are Your Eyes Weak?**

How you may know when Glasses should first be used and those in use abandoned:

- 1st—If you are obliged to move small objects further from the eye in order to see distinctly.
- 2nd—If you find it necessary to place the light between the eyes and the object.
- 3rd—If, when considering a near object, it appears to have a kind of mist before it.
- 4th—If the letters of a book run together, or seem blurred or double.
- 5th—If the eyes are fatigued by close exercise, and you are obliged to relieve them by rubbing or closing them.
- 6th—If black spots appear before the eyes or seem floating around them.

If you observe any of the above signs of distress, it indicates that the "accommodating muscles" of the eyes are no longer able to alter the shape of the lens so as to focus rays of light coming from different distances. A contest with failing sight is hopeless and properly fitted glasses will relieve you.

We make no Charge for Examining the Eyes and we Guarantee Satisfaction.
