

Steamer on Rocks

Messages from St. Mary's reached the city yesterday forenoon to the effect that the s.s. *Wilhelmina* had stranded at Peter's River in the early morning in a dense fog, the currents having evidently dragged the ship out of her course. The crew were saved and landed at St. Mary's. The ship was bound to London with a cargo of deals from the St. Lawrence. Messages in last night say the ship will be a total wreck. When the news came the *Fogota* and *Amphitrite*, with wrecking gear, got ready and started for the scene at 2.30 p.m. yesterday. The ship is 2,671 tons gross, 1,682 net and owned by T. Stephens & Co.

Fogota From the North.

The s.s. *Fogota*, Capt. B. Barbour, arrived here at 6.15 p.m. Saturday after a record run to and from Twillingate, making all ports of call. She left Tuesday at 10 a.m., had splendid weather back and forth, and arrived at Twillingate at 4 p.m. Thursday, leaving again at 5 p.m. Her passengers were Rev. A. Robb, Mrs. J. W. Mercer, Miss S. Miller, W. F. Curtis, T. A. Pipcock, C. Bradley, Miss J. Wagg, F. Moore, Miss J. Brushett, Miss L. Butt, S. A. Francis, Dr. Smith, Nurse Osbourne, Mr. and Mrs. H. A. Crocker, Jno. Lockyer, J. Reid and 7 second class.

MONDAY, July 1st, 12.
Soda Mint and Peppin Tablets answer well for such stomach troubles as heartburn, water brash, sourness, distress after eating, and unpleasant taste in the mouth, and their occasional use often prevents more serious digestive troubles. They are, of course, a corrective, rather than a cure; Dyspepsia in its more advanced stages requires skillful treatment by a medical man. But many cases which cause more or less discomfort yield to these tablets, and for such cases we recommend them. Price 15c a bottle.
Have you seen that remarkable, fine Eau de Cologne of ours? We have some of a skillfully mixed and thoroughly matured kind that will retain its perfume a long time and not become "dead." This is a blend of sweet and fresh perfumes fully as good as any imported kind. Price 60c a bottle.

The July Rod and Gun

"Reminiscences of a Sojourn at Hudson Bay Post," by Frank Houghton, the opening number in the July issue of *Rod and Gun in Canada* (W. J. Taylor, Limited, Publisher, Woodstock, Ont.) contains an interesting comparison between the characters of the white man and the Indian, illustrated in the almost quixotic honesty displayed by "Wabun Annuung" when temptation, in the guise of imminent starvation, might well have proved overpowering. A profusely illustrated chapter of the popular continued article, "The Culture of Black and Silver Foxes" is another feature of this issue which contains many stories and articles of outdoor life in the various Canadian Provinces.

Narrow Escape.

A man driving a horse down Water Street, near Adelaide Street, Saturday evening, narrowly escaped death. One of the street cars collided with his outfit and he was thrown out. The horse, a heavy draft animal, came within an ace of trampling him to death, his hoofs escaping his legs by an inch or so. The man's head was badly cut by the fall he received.

SERVICE FOR MEN.—The annual service for men was held in the C. E. Cathedral yesterday afternoon. A large number were present and Rev. Canon Colley, who preached, gave a most eloquent and impressive discourse from Jer. 1: 5.

Fishermen in Peril.

BOATS DRIVEN OFF—ONE WITH TWO HANDS MISSING.

By the *Fogota* we learn that on Friday last there was great uneasiness amongst the residents of Musgrave Harbor, Cat Harbor, Greenspond and Ladle Cove. All the fishermen left in their boats with a moderate breeze in the early morning for the fishing grounds, but as the day advanced the wind increased blowing off shore, until in the early afternoon a hurricane raged. The *Ladle Cove* men left at 6 a.m., going a mile from their homes, and none had grub in their boats. When the *Fogota* sent her boat ashore with the mails the people, who were distracted, told what had occurred and asked the mail officer to request Capt. Barbour to go in search of the men. The captain

did so quickly and picked up George Wellard and his two sons under the Island. The ship ran up as close to the Island as possible, and the men in the boat cut their rhode and drifted down on the steamer, were thrown a line and towed home. The same was done with other boats which had not the steamer been about, would have been driven to sea and lost. The boats' crews from the other places mentioned above landed on various islands and got home in most cases late Friday night or early Saturday morning when the wind abated. One boat is missing. This was manned by Albert Osmond and Darius Meadus. Mr. Osmond's brother, Samuel, is steamer steward of the *Fogota*. His friends promised to wire him if the missing ones turned up, but as he had no message up to the time the *Fogota* left for the scene of the *Wilhelmina* wreck yesterday, he fears the men are gone.

VESSELS DOCKED.—The *Waterwitch* and three small schooners went in on the dry dock Saturday for repairs.

Gas is Coal With the Trouble Taken Out.

Gas is really nothing more than coal, only with gas you have the coal less the dirt, ashes and smoke. These have been taken out by the Gas Company. The weight, too, has been taken out, for when you use gas you don't have to carry it up from the cellar in buckets, straining your back in the attempt. All of the drudgery has been removed. The gas company has taken everything out of the coal but the heat—and that's the one thing you want. This they deliver to you right to the burner of your range. You only have to turn a tap and strike a match in order to have it.
If your mind is half made up to buy a GAS RANGE, remove the remaining doubt by thinking of last summer and the many days when your kitchen was like a burning furnace. The gas range never overheats the kitchen. You only have to turn a tap and strike a match in order to have it.

MONGOLIAN RACK.—The R. M. S. *Mongolian*, 4 days from Philadelphia, arrived here early yesterday morning. She brought 400 tons of cargo and 25 passengers: John Diamond, Miss Lindsay, Mrs. Norcott, 9 intermediate and 6 steerage.

GOOD FISHING.—The first good fishing on the Southern Shore was noted Friday. At Ferryland traps did well; at Toad's Cove Goodridge's men took 60 qts., and others 20 to 40; at Bay Bulls, Gatherals trapped 40, and hook and line men did fairly. It is hoped that a good sport will develop and a good fishery result.

Shipwrecked Sailors Arrive.

Capt. Diamond and six members of the ill-fated schr. *George Parker* arrived by the *Tobasco* from Liverpool. The *George Parker* was owned by Messrs. Sellars and Harris, loaded fish at Grand Bank, and while bound for Oporto was abandoned in mid-ocean. The crew were taken off by passing steamer, which was coming from a West Indian port, and taken into Bristol. From there the shipwrecked mariners proceeded to Liverpool, where they joined the Furness Line boat.

BAD FISHERY.—On the whole west side of Placentia Bay the fishery is a total failure. The lobster fishery is equal to last year. The bankers of Fortune Bay and Burin have done well and averaged 500 to 600 qts. for their spring's catch. Some have to date as high as 2,000 qts.
