

To-day's Messages.

DOHERTY'S FINE SPEECH.

LONDON, Sept. 14. (Reuter's Ottawa Agency.)—The Times, commenting on the Dominion ratification of the Peace Treaty, says that Hon. C. J. Doherty, Minister of Justice, rose to the greatness and significance of the occasion in the life of the Empire, as General Smuts did at Cape Town. The Times continues: "His reply to Mr. Fleming, represents, we are confident, not only the settled view of the overwhelming majority of Canadians on the position of Canada, but a view which the people of all the dominions hold as to the real status, within the Empire, of their several countries. Mr. Doherty gave a conclusive answer to the argument that by giving her approval to the League and to the Covenant, Canada is abandoning control by her Parliament over her military forces. No self-governing community can be driven into war or ordered into war against its own will. In all such communities legislation is essential to make the conduct of war possible, and the mere apprehension that a Legislature would refuse supplies under the pressure of public opinion, must effectively prevent responsible government, and still more any democratic government, from embarking upon a war which public conscience and public judgment do not heartily support."

EMPLOYING DISABLED SOLDIERS

LONDON, Sept. 14. (Reuter's Ottawa Agency.)—A Royal Proclamation requests employers of labor to undertake to employ as many disabled soldiers as possible, compatible with their business, in order to prevent lack of employment, which would offend the general conscience. The object of the Proclamation is to secure the employment of a hundred thousand disabled men in various branches of industry. The scheme everywhere has met with approval. Seven hundred thousand disabled men are already employed.

COMMERCIAL FLYING SERVICE.

CAPE TOWN, S.A., Sept. 14. (Reuter's Ottawa Agency.)—A syndicate is being formed for the development of commercial flying in South Africa, and an attempt will be made to run a regular service between Johannesburg and Pretoria to begin with.

SUCCESSFUL FIGHTING.

OMSK, Sept. 12. (French Wireless Service.)—The following statement was issued by general headquarters: Stubborn fighting is going on in the direction of Lalaurovakin, the sector of the Chincanovsk. Our troops are engaged in offensive operations in the direction of Rourgas, and have occupied the station at Pieloukhovo, and are pushing the enemy along the railway lines along the whole front. Our troops have captured a great many prisoners and an important amount of war material.

TO BE HELD PERMANENTLY.

WASHINGTON, Sept. 13. Some of the German liners, seized, are to be held permanently by the United States as part of the army transport corps, Chief of Staff March today told the House Military Committee. The President has definitely decided the allocation of the ships, he said, but asked to be excused from discussing the plan of disposal, which will be announced soon.

STILL RAIDING.

TIPPERARY, Sept. 14. Entrance into the Tipperary Club was forced this morning by soldiers but they found the building unoccupied.

FOR RAILROAD NATIONALIZATION

CLEVELAND, Ohio, Sept. 13. The United Mine Workers Organization today endorsed the plumb plan for the nationalization of the railroads, and also pledged supporters of the Miners Organization to secure its enactment, and invited the railroad brotherhoods to join with them in an alliance for joint action, to be later extended into an economic alliance with labor organizations in other basic industries. The conventions action was almost unanimous.

A GERMAN ARRAIGNMENT.

BERLIN, Sept. 11. Dr. Hugo Preuss, who drafted the new German constitution, recently promulgated at Weimar, in a statement today, severely arraigned the demand made by the Peace Conference that Germany must amend the constitution, so as to prevent Austrian representation in Germany's parliamentary affairs. It must emphasize first, he said, that this is not a question of law legally. It is clear and simple. The way in which our opponents brought up the matter shows they are following entirely different purposes than the clearing up of doubtful legal questions.

CHINESE HELPING BOLSHIEVICS.

LONDON, Sept. 13. The whole Amur territory, from Khabarovsk to Moengyrd, in Eastern

Siberia, has been cleared by the Bolshievics, according to a wireless report from Moscow. It is said the Bolshieviki forces aided by 200,000 Chinese troops attacked the White guards.

PREPARING FOR PEACE.

LONDON, Sept. 13. The Government of Latvia has accepted the offer of the Russian Soviet Government to begin peace negotiations, according to a Russian wireless despatch received from Moscow.

HOSTILE GERMAN ARMY.

PARIS, Sept. 14. A despatch received here from Sosnowice, in the Govt. of Plozk, Poland, asserts that a German army, comprising a minimum of 200,000 men, is concentrated on the frontier of Sillesia, ready to be thrown against Poland.

NEW GOVERNOR-GENERAL OF CANADA.

LONDON, Sept. 14. The Earl of Athlone, brother of Queen Mary, will be appointed Governor-General of Canada next summer, in succession to the Duke of Devonshire, the present incumbent, according to the National News.

A NEW MESSAGE.

LONDON, Sept. 13. Premier Lloyd George has issued a message to the people of Great Britain in "the future," which will be distributed free throughout the country on Monday. The Premier says "millions of gallant young men have fought for the new world and hundreds and thousands died to establish it. If we fail to honor the promise given them we dishonor ourselves. What does the new world mean. What was the old world like? It was a world where toll for myriads of honest workers, men and women, purchased nothing better than squalor, penury, anxiety and wretchedness, a world scarred by slums, disgraced by sweating, where unemployment throughout vast stretches of industry, brought despair to multitudes of humble homes. A world where side by side with want there was waste of the inexhaustible riches of the earth, partly through ignorance and want of forethought, partly through entrenched selfishness. If we renew the lease of that world we shall betray the heroic dead. We shall be guilty of the basest perfidy that ever blackened a peoples name. Nay, we shall store retribution for ourselves and our children. The old world must and will come to an end. No effort can shore it up much longer. If there are any who are inclined to maintain it, let them beware lest it fall upon them, and overwhelm them and their households in ruin. It should be the sublime duty of all, without thought of partisanship, to help in the building of the new world, where labor shall have its just reward and indolence shall alone suffer want."

POINCARÉ AT CAMBRAL.

PARIS, Sept. 15. (Reuter's Ottawa Agency.)—President Poincaré visited Cambral yesterday, and was received most enthusiastically. British and French troops formed the guard of honor. After visiting most of the devastated parts, the President proceeded to the Town Hall, where he bestowed the Cross of the Legion of Honor on the town. In the course of a speech he said that Cambral had been the victim for four years of every form of torture, until the night of October 19, 1918, when the French and Canadians attacked and occupied the town, but not before the Germans had set fire to the very heart of the city and burned down 1,300 houses. The President deeply sympathized with the town in its sufferings and eulogized the conduct of the inhabitants, and promised that material assistance would be forthcoming.

CONDEMNNS WOODEN HOUSES.

LONDON, Sept. 15. (Reuter's Ottawa Agency.)—The Daily News says the standardization committee of enquiries into health, does not agree with the recent proposal of Agency General Wade of British Columbia, to solve the housing problem by the importation of wooden houses. The newspaper says that a London firm, during the past twelve months, approached the Housing Committee and Commissioners with suggestions for building houses on the American Colonial system, but in no case had they been able to persuade the authorities to adopt the proposals, despite the advantage in time and money saving. Wooden structures are considered unsuitable to the English climate; transport presents many difficulties and the Standardization Committee is averse to buildings of a temporary character.

MINARD'S LINIMENT CURES DIS-

TEMPER.

New Coal Seam Discovered.

ST. GEORGE'S COAL CO. OPENS TWO NEW SEAMS.

Also Purchases More New Property. On Saturday evening the St. George's Coal Fields Ltd., received a wire from the mining headquarters stating that two new seams had been opened up and that men were then engaged at clearing them away. We understand that the company has recently purchased six miles of mining property held by Mr. S. J. Foote, which, with the four originally held, now makes ten square miles. Everyone interested in the prosperity and advancement of Newfoundland will be glad to hear both bits of news.

PYORRHEA.

Of all the poison taken into the blood, the germs and pus contributed by diseased gums (Pyorrhoea) are the most destructive to the human system. If every red blood cell is forced to fight against numbers of germs to the cell, the blood cannot attend to the building up of the body, and it allowed to continue the system is bound to break down and eventually you are an invalid. Kidney, stomach, heart trouble, rheumatism and many other diseases are brought on by diseased gums and teeth.
