Agreement Reached.

Irish Conference Dissolves in Failure—Marital Law Proclaimed in Pekin—Sydney Citizens Demand Government Investigation—Insurgents Seize Galway Custom House.

PEACE CONFERENCE FAILS.

DUBLIN, April 30.—The Peace Conference held in Dublin today dissolved without reaching agreement. A signed statement by the British and Collins says the Free Government submitted three proposals all of which were rejected by the opposition. The first was for an armistice to be held in June, on the basis of the Anglo-Irish treaty and the constitution, the opponents of the treaty to guarantee there would be no question of voters. The second proposal was that an election be held in the month of June. The third was for a plebiscite of adult suffrage within a month of the issue of acceptance or rejection of the treaty. The Republican organization issued a statement saying they proposed a government commission to investigate the partition and plunder Act, 1914, re-enacted in principle last week.

FIGHTING NEAR PEKIN.

PEKIN, April 30.—Marital Law was declared in Pekin today. The armies of General Chang and General Wu-Pei-Fu fought throughout the day around Chang-chow, twelve miles distant. Chang-chow was victorious at Machang, according to a government communication, but the general fighting was inconclusive. The American legation requested Washington to send another Warship to Tientsin. President Shi Chang issued a proclamation demanding that the warring Generals withdraw their troops and emphasizing the necessity of protecting foreign interests and respecting treaty rights. The generals have 50,000 men each engaged and are rushing up reinforcements, so that there will soon be 100,000 men on each side. Commanders

IN ASIA MINOR.

ATHENS, April 30.—Greek troops are completing their occupation of the Meander Valley in Asia Minor despite severe resistance from the Turks. This valley was recently evacuated by the Italians.

INSURGENT TROOPS ACTIVE.

BELFAST, April 30.—Insurgent troops have seized the Custom House at Galway, says the

Irish Times. Commander Fleming, it is announced, took charge of the books of Wexford Customs House, declaring he would uphold the authority of the Republic in the area under his control if a satisfactory agreement was not reached.

SEEDING PROGRESSING.

WINNIPEG, April 30.—Wheat seeding is progressing and if weather conditions continue favourable will be completed by May 15th.

FORMER TAMMANY CHIEF DEAD.

NEW YORK, April 30.—Richard Croker, former Tammany Chieftain of New York, died at his home in Ireland yesterday.

FRENCH CABINET MEETING.

PARIS, April 29.—A meeting of the entire French Cabinet has been called for Sunday night, when Vice-Premier Louis Barthou, head of the French Genoa Delegation will outline the Conference situation.

Produce and Provisions.

(From Saturday's Trade Review.)

Codfish—The exports this week were 10,784 qts. as follows:—
 From Outports—2,400 quintals by schooner Allan F. Rose from Ramea, by Henry Clement to Oporto.
 From St. John's—By S.S. Rosalind to New York for transshipment to West Indies, 3,088 qts. of cod fish from various shippers; by S.S. Sable I. from Messrs. Monroe Export Co. Harvey & Co., and others 2,538 quintals; by schooner Ingrid 2,700 qts. from Nfld. Produce Co., to Oporto; total for St. John's 8,324 qts. The Oporto Nfld. stocks are down to 19,000 with about 6,000 weekly consumption. The Spanish and Portuguese markets are holding in fair condition.

Cod Oil—There has been no increase in the offerings, and the market locally remains steady. Foreign advices state that the demand, which was active a few weeks ago has become flat, and buyers cannot be induced to take hold even at reduced prices. We hesitate to quote any price, as there are so few buyers here ready to operate.

Cod Liver Oil—There has been another advance in Norway, and it looks like an improving market. The fishermen at the Lofoten Islands all leave for home at Easter, and the present operations are of very minor importance. The following is latest statistics to March 25th:—

	Catch of fish	Oil
1920	12,300,000	26,896 brls.
1921	20,900,000	36,108 brls.
1922	18,700,000	35,739 brls.

The catch of codfish is only a fair average, but the yield of oil from the livers has been good, and while the total quantity manufactured is not nearly as much as some years previous to the war, still there is enough oil in sight to prevent any chance of fancy prices when the present state of the trade is considered.

Flour—The imports for the week just ending were 575 barrels and 11,000 sacks. The total in since New Year is about 65,000 barrels, as compared with 47,500 same date last year. Prices of wheat have firmed up about nine cents a bushel the past few weeks in the Chicago market, where the quotation for May wheat this week seemed quite firm around 140, which means on flour per barrel. Local quotations for leading brands in the St. John's market are now \$10.25 to \$10.30. This is cheaper than flour can be imported. The cost of new imports should be about \$10.50.

Pork—Quotations in the American market continue fairly steady this week. Chicago May pork holding around \$21.00 to \$21.50. The S.S. Sable I. brought 125 barrels this week, making the total imports to St. John's since New Year 6,344 barrels as compared with 3,155 same date last year. The trade here, it will be seen from these figures, is 100 per cent. ahead on the importation of pork so far. The high duty keeps Newfoundland from getting the full benefit of the comparatively low United States prices. The local quotations to-day are: Family Meas, \$42.00; Ham Butt and Spare Ribs, \$31.00; Fat Back and S. Clear, \$28.00.

Beef—The beef market is quiet and unchanged. The imports this week were 125 barrels by the S.S. Sable I. and 450 by the S.S. Rosalind. This gives a total of 9,500 barrels to St. John's as compared with 4,630 barrels at a corresponding date last year. The shortage of last year's imports at the date referred to, was however, due to the fact that there were large stocks of 1920 imports on hand at New Year of 1921. The prices prevailing in the local market at present are very encouraging for fishery outfitting, seeing that a good packet beef can be had as low as \$20.00 per barrel for cash. The other grades are: Boneless \$21.00 to \$21.75; Family Special, \$20.50; Bone Flank \$24.00.

Molasses—The 40 cents per wine gallon price is still being asked in Barbados, and the new Fancy is going out rather slowly. A decline on this grade is possible in the summer, and Groceries will no doubt be cheaper later on. There are no large quantities being purchased for Newfoundland order, and there is only about enough in stock to supply normal demand for

fishery outfitting. There are three or four vessels now on the way. The St. John's prices are unchanged. The cargoes that have arrived are moving out fairly well. The stocks imported since Spring are about 1,500 puncheons.

Sugar—The sugar market is strong both in New York and Montreal this week, after a decline of 24 cents per 100 lbs. the previous week. It is now generally believed in sugar circles that the price will go no lower. The New York market has taken on new activity, and wholesalers realizing that the bottom has been reached, are now stocking up heavily for the summer trade at \$6.50 to \$6.60 per 100 lbs. for American White Granulated. Montreal refiners have taken on some heavy orders lately and, altogether, there is a new activity that denotes that the bottom prices have been reached and available supplies of refined are far short of the rising demand. The local quotation is \$10.50 to \$10.60 per 100 lbs. on the barrel.

Potatoes—Growers of United States potatoes are eager to dispose of their surplus stocks in New York just now, and the receipts are quite heavy for April. Prices have tumbled in consequence. "Maine" potatoes are down to \$3.50 per bag of 150 lbs., "Long Island's" to \$4.00, and "Bermuda's" (new stock) as low as \$3.00, and "Florida's" to \$3.00. The local market is now well supplied with both home-grown and imported, which are selling wholesale at \$3.00 and \$3.70 respectively. This week 700 sacks (150 lbs.) were imported by the S.S. "Rosalind," 400 being ordered by the Agricultural Board for Spring seeding. Also 700 sacks by the Canadian Sepper.

Hay—The Canadian market is firm and higher under light offering. The quotation at Montreal for No. 2 Timothy is \$29.00 to \$30.00 per ton in car lots on the Railway track. This means one dollar a ton over the price that ruled the first week of April. No. 1 is quoted at \$31.00 to \$32.00 at both Montreal and New York this week, and it is believed by dealers that the price will hold at about present levels till new crop comes in July. The S.S. Sable I. brought in 205 bales from Halifax this week and the S.S. Canadian Sepper 1,706 bales. Local prices are \$53.00 to \$4.00 per ton wholesale.

Oats—There is no weakness in the oats market. On April 10th the quotation at Winnipeg was 48 cents, while yesterday, it was 95¢. It is possible that the opening of navigation on the St. Lawrence this week may see a swing back of the pendulum to the former quotation, in consequence of the more favorable freight rates. The S.S. Maple Dawn will be the first ship to St. John's from Montreal, and she will bring a full freight of flour, hay, oats, etc. The present local prices are \$3.70 for mixed, and \$3.90 for white. The imports this week were 900 sacks by the Canadian Sepper.

Wool—The Canadian market is firm and higher under light offering. The quotation at Montreal for No. 2 Timothly is \$29.00 to \$30.00 per ton in car lots on the Railway track. This means one dollar a ton over the price that ruled the first week of April. No. 1 is quoted at \$31.00 to \$32.00 at both Montreal and New York this week, and it is believed by dealers that the price will hold at about present levels till new crop comes in July. The S.S. Sable I. brought in 205 bales from Halifax this week and the S.S. Canadian Sepper 1,706 bales. Local prices are \$53.00 to \$4.00 per ton wholesale.

Oats—There is no weakness in the oats market. On April 10th the quotation at Winnipeg was 48 cents, while yesterday, it was 95¢. It is possible that the opening of navigation on the St. Lawrence this week may see a swing back of the pendulum to the former quotation, in consequence of the more favorable freight rates. The S.S. Maple Dawn will be the first ship to St. John's from Montreal, and she will bring a full freight of flour, hay, oats, etc. The present local prices are \$3.70 for mixed, and \$3.90 for white. The imports this week were 900 sacks by the Canadian Sepper.
