## SIDE TALKS.

By Ruth Cameron.

THANK YOU DAY. To-day is Thank that has lifted you for a moment into

That is what a an author for a book that has given clation? little girl friend you hours of pleasure in the comasked her mother ated for you. Day meant, re- To a husband for his self-denial, for christened it af- his daily work, for the home he has

tened to her mother's explanation. you.

I think it is a pretty good christening, don't you? Somehow Thanksgiving Day has

come to slip so glibly off our tongues that we are likely to forget what it means. Like Fourth of July. Laugh If you will, disbelieve me if you must, but it is true just the same, that until I was quite a big girl, I never separated the name of that holiday into its component parts. I thought of it always at "Fothojuli." I can still remember the shock of discovery when learned that those mystic syllables simply meant the Fourth of July.

Not Just Thanksgiving Day. So one needs to be reminded that co-day isn't just Thanksgiving Day, but thank you day.

Primarily the day when we are supposed to say a special thank you to

how many of the millions who eat fat easts and sit by comfortable fires and trive out in their cars don't even besin there). Why not go on, after your plessings, to say some smaller thank rous to some of God's agencies on

QUALITY COUNTS-To see is to

Old Stuff

A certain professorlike gentleman sought an assignment from a newspa-

sketches from New Mexico and Arizona, where he was going for his

health. The editor told him that he

would allow him fair space for every-

thing used, and advised him to make

his stuff up-to-date, stating that the

newspaper didn't care much about his-

tory or subjects that had been treated

"What we want is something the

people now on earth know about pro-

gress in road and town building, new

ways of doing things, customs of the

people, and so on—something fresh

The professor nodded, shook hands.

and left. Shortly after news of a rather

remarkable find began to appear in

fragmentary sketches in some of the

papers. There were hints at a won-

derful city, built by a race of people

who came long before the Indians and

who seemed to have had great skill in

architecture and general construction

As the days went by the story grew bigger, the last account coming from

New Mexico town. And that very day

letter arrived from the professor,

from that very town, in which he

wrote about everything on earth ex-

cept the buried city right under his

nose! With electric swiftness the edi-

tor directed the traveller to hunt up the discoverer, interview him at length

and telegraph in a good story. To this
