Wedding Bells at Holyrood

KIRBY-MULLOWNEY.

The wedding bells rang out merrily on Wednesday afternoon, Nov. 25th, when Mr. Michael C. Mallowney and Miss Isabel Kirby were united in the holy bonds of matrimony. At 2 o'clock the guests numbering about seventy-five assembled at the home of Mrs. Alice Kirby, mother of the bride, and after exchanging courtesies and partaking of some refreshments took their seats in twelve gaily bedecked motor cars in waiting and were conveyed to the Church of Holyrood. The bride entered the church leaning on the arm of her uncle, Mr. Edward Kirby, Sub-collector, who gave her away. Rev. Father Finn, P.P., performed the wedding ceremony before the High Altar. Miss Ethel Walsh, cousin of the bride, acted as bridesmaid and Miss Bertha Bennett as maid of honor. The groom was supported by his brother, Mr. James Mallowney. Miss Agnes Bennett was ring bearer and Miss Anna Carroll flower girl. The ceremony over, the wedding party motored back to the bride's residence. Along the route they were greeted with displays of bunting, salvos of guns and cheering of assembled children. A reception was held and supper served. The supper table was laden with a bountiful supply of everything that the most fastidious epicure could desire. Mr. E. Kirby, Chairman, proposed the health of the bride in a brief speech which extolled the qualities of the bride and groom, and happy and congratulatory speeches were made by Messrs. M. E. Hawco, P. J. Veitch, R. Dwyer, Capt. Kennedy, Const. Grouchey and J. J. Carroll to which the groom, Mr. Mallowney, replied on behalf of his fair bride, himself and his parents to the chorus of congratulations the foregoing gentlemen had showered them with. After supper the youthful members repaired to the dance hall next door, and danced till daylight to the music supplied by Messrs. Hannon and Whelan. The older members recounted reminiscences of bygone days and indulged in the popular game of Auction 45s. The bride looked charming in a gown of ivory satin draped with silver lace and orange blossoms with veil and pearl coronet, and carried a bouquet of carnations, chrysanthemums and maiden hair fern. Her travelling costume was reindeer with hat to match. The bridesmaid and maid of honor both wore rust color satin gowns with picture hats. The mother of the bride was gowned in champagne satin.

The groom's present to the bride was a cheque, to the bridesmaid and maid of honor dinner rings, to the best man gold stick pin, to the flower girl and ring bearer bangles. The bride's presents were numerous, varied and costly, including \$50.00 in gold from her uncle, Mr. Edward Kirby, the father giver, a \$20.00 gold piece from the groom's parents and cash amounts from other friends. The mother's present to the bride was a mikkrat fur coat. These presents attested in a marked degree the popularity of the young bride, and appreciation of her efforts amongst the people.

The bride is the only child of the late William Kirby and Mrs. Alice Kirby, and the groom the eldest son of Mr. and Mrs. James Mallowney, all of Holyrood South. The wedding of Miss Isabel Kirby and Mr. M. C. Mallowney was a big event and will be long remembered. 'Twas celebrated in grand style and kept up until the following afternoon when the principals entrained for Grand Falls on their honeymoon trip followed by the best wishes of their numerous guests for a pleasant wedding tour and a happy and lengthy wedded life.

Little Things That Count

"According to the National Institute of Industrial Psychology, an investigation has recently been carried out in a workshop where twenty-five men were engaged in assembling and repairing gas stoves," states the Daily Telegraph.

"It was found that during a week of forty-six hours, on 513 occasions one or other of the men had to borrow a tool from a neighbour. Each of these 513 delays averaged 54 seconds. The suggestion that each man should be provided with a complete tool kit has now been adopted.

"It was also found that the men were delayed through congestion at the lift about 600 times a week, and each delay averaged 5.88 seconds. These delays have now been entirely eliminated. In order to fetch stove parts and materials from stores at the other end of the shop 1,691 journeys had to be made in a week by the twenty-five men, occupying on the average 3.15 minutes a journey.

"A lift with a truck has now been employed to act as a runner, and the time lost by the men has been reduced from 7.17 to about 2 per cent. It was found that if he used a flat brush in-
