AN ENGINEER'S STATEMENT

Ben Rafferty, of Winnipeg Division, Says Dodd's Kidney Pills Are O. K.

Winnipeg, Man., May 21 .- Probably the most enthusiastic man in Manitoba in regard to Dodd's Kidney Pills is Ben Rafferty, of the C. P. R. He is one of the drivers on the big trans- of the Boer delegation by declining to continental road, and the jarring of interfere in behalf of the South Afrithe engine and long hours, combined to bring on Kidney Disease, from which Mr. Rafferty suffered for twenty years. He was cured by Dodd's Kid-ney Pills. His case is so well-known throughout Canada that a Toronto gentleman wrote to Mr. Rafferty recently asking him if he could recommend Dodd's Kidney Pills. Mr. Rafferty wrote in reply:

Winnipeg. Dear Sir,—I received your note of yesterday. I will recommend Dodd's Kidney Pills at any time to any person with pleasure. They are O. K. Yours truly, B. RAFFERTY.

LIFE SAVED .- Mr. James Bryson Cameron writes: "I was confined to my bed with inflammation of the lungs, and was given up by physicians. A neighbor advised me to try Dr. Thomas' Eclectric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on the advice I procured the medicine. and less than half a bottle cured me; I certainly believe it saved my life. It was with reluctance that I consented to a trial, and I was reduced to such a state that I doubted the power of any remedy to do me good."

A DINNER PILL .- Many persons suffer excruciating agony after par-taking of a hearty dinner. The food partaken off is like a ball of lead upon the stomach, and instead of being a healing nutriment, it becomes a poison to the system. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and convey the food partaken of into healthy nutriment. They are just the medicine to take if troubled with in-

Boers yelled: "Come out, you skulkers. Today we take Mafeking." Suddenly a Boer yelled: "Run! here are the Rooineks!" Nearly all fied. are the Rooineks!" Nearly all fied. Capt. Marsh opened fire from the fort on each side, cutting off and repulsing the main body of the Dutch, but driving the vanguard of about 150 into the native location which had been burned. The enemy broke into two parties, one being penned in the stone kraal, and the other hemmed in a hollow behind a koppe inside the outer defenses. They had no water, and but little food. Meanwhile, a strong party, estimated at 500, ran around the native location and reached the camp close to the railway. There they surclose to the railway, There they sur-prised, and after sharp fighting cap-tured, Lieut.-Col. Hore, Capt. Singletured, Lieut.-Col. Hore, Capt. The Boers were called upon to surrender, but they refused, and the fighting was resumed for some hours. The Boers lost heavily. Finally two parties of the enemy surrendered, one party escaping. LAST DAYS OF THE SIEGE. Lady Sarah Wilson, in a dispatch from Mafeking, dated May 11, gives the final description of the final days of the siege: "As we near the end of the siege, conditions in this little town are perhaps becoming more cheerful. The rainy season is ap-parently over. The weather is splendid, and consequently the fever epi-demic is diminishing. Rations are still small, but it is wonderful how little one needs for existence, and the new food, brawn from horse and ox hides, is a great success. This food and porridge, the inventor of which has re-ceived a five-pound bonus from the government, is equivalent of six weeks' additional provisions. The natives pre-ferred it to any other, so that the slege has taught them a new food."

MANY MORE MEN FOR SOUTH AFRICA

London, May 22.—Six siege trains have been ordered to be prepared at Aldershot for transportation to South Africa.

The war office announces that eleven vessels will leave home ports during the next 30 days with 3,869 officers and men and 2,385 horses. The promotion of Col. Baden-Powell is generally expected to be followed by fur-ther honors, probably an important command, with a temporary rank of lieutenant-general. He only got his colonelcy in 1897, and he now goes ahead of a long list of seniors.

DECLINES TO INTERFERE.

Washington, D. C., May 21.—The state department has met the issue raised by the coming to Washington intenfere in behalf of the South African republics in the present struggle. In view of this announcement all questions as to the character of the recognition to be extended to the delegates and the sufficiency of their credentials dropped at once into the background. was, after all, of little moment whether or not the Boers were received as diplomatic agents or ministers, so long as they were powerless to promote the prime object of their mission, namely. "cause the United States Government to intervene to

bring about peace." The concluding paragraph of the secretary of state's reply to the Boer envoys is as follows: "The president sympathizes heartily

in the sincere desire of all the people of the United States that the war now afflicting South Africa may for the sake of both parties engaged come to a speedy close, but having done his full duty in preserving a strictly neutral position between them, and in seizing the first opportunity that presented itself for tendering his good offices in the interests of peace, he feels that in the present circumstances no course is open to him except to persist in the policy of impartial neutrality. To deviate from this would be contrary to all our conditions, and our national interests, and would lead to consequences which neither the president nor the people of the United States could regard with favor."
