HAS HE THE POWER DIVINE?

Ministers of the Gospel Say He Is Gifted of God, and Praise Him  
for His Help to Suffering Humanity--He Gives Services  
and Home Treatment Free to the Sick and Afflicted.

New York, Nov. 12. (Special Correspondence).--Seeing is believing, and witnessing the seeming miracles performed by Prof. William Wallace Haldy makes one exclaim: "Is there a known limit to this man's healing power? Is there a single disease he cannot cure? Is there a case so hopeless that he cannot restore health?"

Probably no other physician in the world treats as many patients as this famous professor of panopathy and physiatrics. They come to him by scores and hundreds. The sick and suffering, the lame and halt, the consumptive and paralytic, the drug fiend and the drunkard, invalids from almost every known disease form an endless procession seeking health at his hands. And this wonderful, this wizard of science, this great-hearted physician receives them, treats them--cures them.

Heads them off by the medical profession, cures them after they have been doomed to death by doctors--revives health and strength in the face of seeming impossibilities.

Not in a spirit of boasting or vanity but in a quiet, calm statement of fact, he says there is no disease he may not cure--says it, and, what is more, proves it. During a recent talk with this man who has revolutionized the theory and practice of medicine, he said: "Thousands of precious human lives have been sacrificed every year by useless medicines and brutal surgery that kill offener than they cure. All of our modern medical profession know this, whether they will admit it or not, and it is time that the general public was made aware of the facts."

"Ases have come to me that have baffled some of the best physicians in the country, where one doctor has said the trouble was with the stomach, and another said heart, still another diagnosed kidney disease or something else. But in each case I was able to see the real cause and by removing it, I have known stomach trouble to be cured, heart disease, rheumatism, and countless similar instances. When these mistakes are made, and the patient is treated for the wrong disease, how can the sufferer hope to get well. It is as if you tried to cure a blind man with eyeglasses. One is just about as sensible as the other. But I make a careful diagnosis of each case that comes to me, and treat the real cause."

I have discarded the useless drugs and medicines commonly prescribed by physicians, and use a system of treatment that is as much superior to modern medical practice as the sun is to a candle. Now that I have perfected it after long years of practice and experiment, I find that I have the power to cure my patients without their coming to me or my going to them. For instance, read this letter from Rev. Samuel Sutton, an eminent divine of Williamsburg, Ky. You see, he says:

"I feel thankful to God that I was directed to you for relief from my pain and ill health. I feel sure that our Heavenly Father has helped and directed you in working out a secret of power over disease. Your efforts must be accompanied by the Holy Spirit to accomplish such miracles as you have done. I believe that there is nothing to equal your treatment for the relief of suffering ones from pain, weakness and disease. With all suffering ones knew its power to heal as I do, since it cured me of heart and kidney disease, catarrh of the bladder and hemorrhoids. Dear doctor, I cannot find words to express my thanks to you for your kindness in not ridiculing me of all my physical sufferings. My prayers are that others may do as I have done, write to you and get relief, and that you may be joyful in abundance on this earth and in the world to come for your faithful search and your success in finding such a wonderful power that when your treatment comes in contact with disease, illness must give way to health."

"My experience has proved that there is no disease I may not cure. I do not care how severe the case may be, how chronic, how long-standing, what other men have said or failed to do, or whether the patient has been pronounced incurable or not. I am just as ready to cure consumption, cancer, paralysis, Bright's disease, organic weakness, deafness, any of the drug or liquid habits, and other so-called incurable diseases, as I am to cure stomach and bowel troubles, rheumatism, nervous prostration, blood dis-

## PRaise SERVICE AT ST. ANDREW'S

Choir Assisted by Mrs. Marshall  
Pease, of Detroit, Renders  
Splendid Programme.

The organist and choir of St. Andrew's were greeted by a packed church on the occasion of their Thanksgiving service of praise last night.

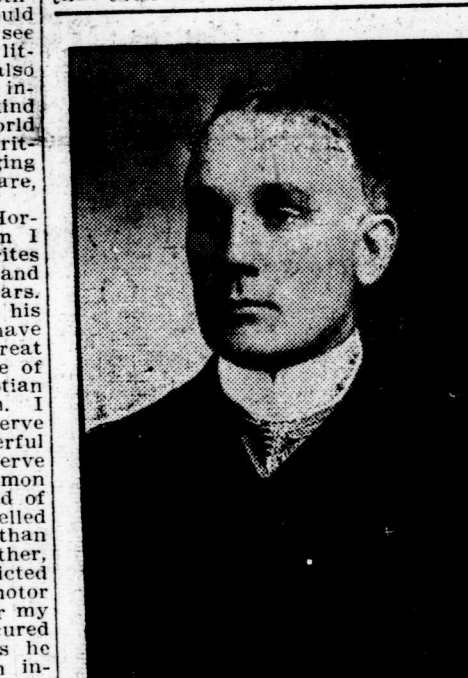

Assisting the regular soloists was Mrs. Pease, of Detroit, last heard here in Rossini's "Stabat Mater," in the First Methodist Church. Her voice is beautiful in both tone and resonance in the lower register; in fact, it is seldom that a contralto voice of such depth and roundness has been heard here. Her pronunciation and general style were much better than on her previous appearance, but in the upper register she exhibits that too frequent phenomenon of an entirely different tone and tone production, an effect which is unexpected in a singer of her caliber.

The regular church soloists, Miss Mortimore, Miss Mowat and Mr. Ernest Mowat, assisted in solo, duet and chorus as on the programme. Avoiding comparisons with the visiting soloist, which

would be obviously unfair, although natural and unavoidable on the part of the audience, they sustained their parts creditably. Such slight faults as might be spoken of, such as a rather unsuitable selection of solo, are apparently thoroughly capable of any demands that their work may make on them.

Mr. Charles E. Wheeler,  
Organist of St. Andrew's.

Mortimore's remarkable soprano, Miss Mowat's beautiful mezzo-soprano, and Ernest Mowat's general good style, have been noted and appreciated on many previous occasions.

Mr. Wheeler's choir exhibits the same general characteristics as have been noticed in former praise services. He has brought them to a high state of efficiency both as regards attack and precision, and shading. This condition may be taken as his aim in rehearsal, and it is in tone quality that the choir is particularly noteworthy.

It can be said that St. Andrew's choir has every element of good choral singing, and that it is in tone quality that the choir is particularly noteworthy. It can be said that St. Andrew's choir has every element of good choral singing, and that it is in tone quality that the choir is particularly noteworthy.

"Surely, you do not mean that you give services and treatment free to anyone merely for the asking?"

"Yes, I mean just that. I believe that as a Christian it is my duty to God and to help all who are in need. When I have been given the power to cure, I do not believe that I have the right to make anyone who has money use useless drugs, when I can heal him without them. We all owe a duty to our fellow-men. We must all serve in one way or another. Where a rich man gives money I give health. I am not a millionaire, but I am able to afford to do my share in relieving the sufferings of mankind. And I am happy to give freely of my power to anyone who needs it. And I am especially anxious to cure any poor mortals who have been told that his or her case is incurable, that there is no hope left on earth. Or anyone who has grown weary spending money on useless drugs and doctors in a vain search for health. If they will write to me and accept my offer, there is not only hope, but an almost absolute certainty that they need be sick no longer. And it is a blessing that my power makes a better to me do just as much good as a personal visit."

Grand Trunk Pacific Railway, under the direction of E. A. Doucet, C. E., divisional engineer of the work are making excellent progress in their work. Mr. Doucet has eleven parties along the proposed line, and all the reports so far are very favorable. The surveyors are meeting with easy going, and there is every prospect of obviating all the difficulties anticipated. Mr. Doucet expects to see the work surveyed finished in so far as his part of the work is concerned by the month of May next, which would afford the Government the opportunity to award contracts for the construction work in June.

Alfred T. Gow, who has been for 23 years chief clerk of the audit office of the Canada Atlantic, has been appointed chief accountant for the G. T. P. construction commission, and has assumed his new duties.
