HURON COLLEGE HAS PROGRESSED

Reports of the Last Year's Work Were of Encouraging Nature. BIBLE IN THE SCHOOLS. Synod Will Once More Endeavor To Secure a Vote of People on the Question.

The report of Huron College for the past year was presented by Rev. Principal Waller, D. D., at this morning's session of the Synod. Seven men had graduated from the college during the year, and four of these had B. A. Degrees. The other features of the report were of a most encouraging nature, the most notable feature being the clause which reported the near completion of a new chapel for the college at a cost of \$1,500 of which all but about \$300 had already been subscribed. Much of the work had been done by the Principal and the students themselves.

Coupled with the report on the committee on religious instructions in the public schools, some discussion took place as to the reason for the scarcity of young men offering themselves for the Christian ministry. The general consensus of opinion seemed to be that the materialistic tendency of education today was at the root of the trouble. Young men and boys were taught the ideals of success as money-makers.
