# WAVES QUELL FIRE

Six Norwegians Left Blazing Vessel, and Boat Drifted Away.

[Canadian Press.] New York, March 1 .- Six members of the crew of the Norwegian tank steamer La Habra, carrying a cargo of benzine, were lost at sea in an open boat they had launched in an effort to escape from flames which threatened their vessel, according to an unusual shipwreck story brought to this port today from Horta, Fayal, by the Holland-American freighter Zaandyk. The fire aboard La Habra was caused

by an explosion of benzine while she was on her way from Talarabia, Peru, to London by way of the Panama Canal. The captain ordered the crew to take to the boats and stand by. The chief officer and five men were in a boat towing astern when the painter burned off and they drifted away without oars

n a heavy sea, he said. The fire was extinguished by giant waves which broke over the ship, and the captain took her safely into port February 7 by dead reckoning, for all navigation instruments were
