The clergy and people sympathize with the revolutionists. Bustamante was sent to suppress the movement. There had been many arrests at Lima of suspected persons. The opinion is growing that Prado's days are numbered.

SAN FRANCISCO, Oct. 28.—About 10 o'clock on Saturday night, a woman named Miss McDonald, who had been stopping temporarily at the house of Mr. John Center, at the Mission, was found in the mud and water of Mission creek, clinging to one of the timbers of the bridge.

When rescued she was apparently in an almost helpless condition. She stated that while proceeding to her home a short time before, she was seized by two men. One of them masked, who partly stupefied her with chloroform, hurried her into a carriage, drove off and threw her from the bridge near the place where she was found.

Some months ago, she went before the grand jury and procured the indictment of A. J. Stevenson, for an alleged outrage upon her person. The trial is to come off next term of court. It is thought by some persons that she got into the creek herself and concocted the story of abduction and attempted murder for the effect it would have on this trial.

Hugh Moore sues Samuel Marks to recover \$7,500 damages from an alleged malicious prosecution of plaintiff. He says defendant caused him to be arrested for the crime of petty larceny, which complaint was dismissed by Judge Rix upon Marks' own testimony.

The floating dry dock at North Point is now in successful operation. On Friday last, the schooner Florence was taken upon it and repaired, and this morning she went off to give place to another vessel of the same class, which was taken on. When the Florence was on the dock it was pressed down only about three inches, showing that it is of sufficient floating capacity to take up much larger vessels.

JACKSONVILLE, Oct. 28.—A military express has just arrived from Fort Klamath, which brings the information that General Crooks was defeated on the 17th inst., about twenty miles from Goose Lake valley, by a band of Piute and Pitt river warriors, numbering about one hundred. Gen. Crooks' command consisted of forty men of company H., U. S. Cavalry, and although finding the Indians strongly entrenched in the rocks, he fought them for two days, until compelled to retire with the loss of Lieut. Manigan and six men killed and twenty wounded.

It was thought that about 50 Indians were killed, but it was difficult to ascertain the actual damage done to the enemy. Gen. Crooks sent a Sergeant to Fort Klamath with dispatches, and is now supposed to be about the upper end of Goose Lake valley, waiting for assistance.

FRAUD

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856. HONORABLE SENATOR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on existing rheumatism, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow but sure. By persevering in the use of them, I am now entirely cured.

SEWARD CHAMBER, Baton Rouge, La., 6 Dec. 1855. DR. AYER: I have been entirely cured, by your Pills, of Rheumatic Gout—a painful disease that has afflicted me for years.

Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public form from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for \$1. Prepared by Dr. J. C. AYER & Co., Lowell, Mass.
