

Wreck of S. S. Madiana

Vessel of Quebec Steamship Line on the Reefs Off Bermuda.

Passengers and Crew Saved After a Thrilling and Dangerous Time.

Coolness of Officers Prevents Panic and Restores Discipline Among Crew.

Hamilton, Bermuda, Feb. 10.—The Quebec S. S. Company steamer Madiana, Capt. Fraser, which sailed from New York last Saturday with a party of excursionists for a special cruise around the Caribbean islands, went ashore on the reefs of this island at 2 o'clock this morning.

According to statements made by those on board, the Madiana was treading the reef way in the night through the narrow channel between the coral reefs which lead to Hamilton harbor, when she struck a reef one and a half miles northeast of North Rock.

Explanation is yet forthcoming as to how the vessel was able to land on the only information obtainable from the officers is that the light which indicates the channel for the steamer could not be seen.

All passengers were saved, but the vessel was wrecked and the cargo was lost.

Distress signals were sent up, and the passengers passed an anxious time during the latter part of the night.

The Madiana listed heavily in the night, and morning broke, lay broadside to the wind, and the passengers, who were dressed, being huddled together on the hurricane deck, and the sea breaking over the steamer.

As soon as the news of the wreck became known here, government assistance was sent to the vessel.

By the prompt action of Engineer Wilson, who had the Madiana's bulkheads made into a life boat.

The Madiana, which is a 2,000-ton steamer, was wrecked here this afternoon.

Joseph K. Croft, of Hartford, Conn., one of the passengers, was interviewed by the Associated Press.

Mr. Croft said that the vessel was struck by a cable from Rio Janeiro.
