BETRAYING CONFIDENCE.

It is to be very much regretted that the larg majority of so-called regular M. D.'s will pers'st in discouraging poor sufferers whom they have failed to cure in trying the specialist in whose hands lies their I st and only chance to get well. Many placing implicit confidence in their family physician even frer he has failed to cure them, will, by his s lii h advice, abandon all hope and in despair lie own and die. We can give you the names o and usands who in spite of such advice have, secretly all tamid y, for fear their physician would know of i, put themselves in the hands of the Sp cialists of the International Throat and Lung Institute of Toronto and Montreal, where the Spirometer invested y Dr. M. Souvielle of Paris and Ex Aide Su geon of the French army, is used, and got entirely well when everything else had failed. Any one suffering tom Asthma, Catarrh, Bronchitis, Catarrhal Deafness or Consumption in the first or scond stage should consult these Specialists personally, if possible if not write for list of questions and copy of "International News," published monthly, to 173 Church street, Toronto,

or 13 Philips' square, Montreal, P.Q.

What is Catarrh?

From the Mail (Canada) Dec. 15.
Catarrh is a muco-purulent discharge caused by
the presence and development of the vegetable parasite amœba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are: Morbid state of the blood, as the blighted corpuscie of to bercle, the germ poison of syphilis, mercury, toxomes, from the retention of the effeted matter toxomes, from the retention of the efficient matter of the skin, suppressed perspiration, body ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal linium membrane of the nose in a constant state of irritation, ever ready for the deposit of the seads of these germs, which spread up the nostrils and down the fances or back of the throat, causing uncertain of the throat; up the custachian tubes, c. using deafoess, burrowing in the vocal cords, causing hearsones; unurping the proper structure of the bon-thal tubes, ending in pulmonary consumption and detth.

stes are either destroyed or removed from the mucous tissue.

Some time siuce a well known physician of forty years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fails in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs. A. H. Dixon & Son 395, King street west, Toronto, and get full particulars and treatise free by enclosing stamp.

Himalaya (the abode of snow from the fansorit "hima," snow, and "alaya," abode) is the most elevated and stupendous system on the globe. The tea plant can be culti-vated along the entire southern face of the Himalaya to an elevation of 5000 feet, but the best is produced at from 2000 to 3000 feet above the sea, and the best only is sold by the Li-Quor Tea company at 39 cents
