**The Indian Census.**

In no part of the British Empire is the task of census-taking so arduous and difficult as in India. This happens not on account of the number and density of the population and its many differences in race, religion and language, but of the prevailing ignorance and prejudice regarding the character and purpose of process. This has been usually associated with the intention to increase taxation or in some other way to herald an interference with cherished customs and beliefs. It is therefore satisfactory to learn that this year the census has been taken in record time, and with unusual completeness. The provisional returns give the population as 315,000,000 an increase of upwards of 20,000,000 since the 1901 census. That they were furnished only ten days after the taking of the census is a striking tribute to the efficiency of its staff organization, and has elicited the commendation of the governor-general. The population of Bombay is placed at 972,992, and but for a local trade depression, which caused the temporary absence of many of the usual residents it would probably have reached the million mark.

**"FEEBLE STOMACH"**

**Causes Digestive Weakness and Poisons the Entire System.**

"No one can have suffered more than I did with stomach trouble," writes Phil E. Pascolar, well known at St. Andrews Corners. "My doctor told me my indigestion and sleeplessness were due to poisons in the blood. Certainly my condition was desperate, and it seemed from the despondent feelings that swept over me that I would lose my reason. I happened to read about Dr. Hamilton's Pills and bought five boxes from the drugist. Such body-cleansing pills I never used; they were mild and yet quite strong enough to drive all the humors out of the blood. My stomach gained strength rapidly with Dr. Hamilton's Pills and I improved so much that in eight weeks I could eat and digest all ordinary food. Depression and weariness passed away and I am, thanks to Dr. Hamilton's Pills, enjoying robust good health."

No remedy for biliousness, indigestion, headache, sick stomach, or constipation that compares with Dr. Hamilton's Pills. Refuse substitutes. Sold in 25c. boxes. All dealers, or The Catarthozos Co., Kingston, Ont.

R. J. Campbell, Wawota, Sask.:—"We have had a very cold winter here, especially the month of January, the thermometer was all the way from 20 to 50 degrees below zero, with a strong wind blowing all the time, which is something unusual when it is so cold. The snow was about three feet deep on the level but it has been fine weather since about the middle of February and if this weather continues seeding will be general in about another week. There is going to be a big rush of settlers from the States to this country this spring. They have been coming since the first of February."
