

WOMEN MAY AVOID OPERATIONS

By taking Lydia E. Pinkham's Vegetable Compound

The following letter from Mrs. Orville Rock will prove how unwise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before.

Here is her own statement.

Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not get on my feet for a long time. My physician treated me for seven months without much relief and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with any female complaint to try it."—Mrs. ORVILLE ROCK, R. R. No. 5, Paw Paw, Michigan.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

For thirty years it has been the standard remedy for women's ills, and has positively restored the health of thousands of women. Why don't you try it?

NOTE AND COMMENT.

As the springtime approaches the peddler will be around in all his glory. He will tell you a smooth story about bankrupt stocks that must be sold. But be not deceived. Remember that your home dealer is here to make every promise good, and that he can always give you a better stock to select from. It is characteristic of the Canadian people to get something for nothing, but the time when they can do this has not come as yet. Nor is it liable to come this summer. Our merchants do not promise to give you something for nothing, but can give you as much for your money as you can get anywhere else, and are showing an immense lot of reliable goods.

Those who are keeping their eyes open and watching developments in the country, see "higher priced and dearer farms," written large on the horizon of the future. Several properties in this vicinity have been sold recently at extraordinarily good prices, and it is pointed out that

Every Woman
is interested and should know about the wonderful **MARVEL Whirling Spray**—The new Vegetable Compound. Most convenient. It cleanses instantly. Ask your druggist for it.

If he cannot supply the MARVEL Whirling Spray, send stamp for illustrated book—sent. It gives full particulars and directions available to ladies.

this is just an evidence of what is to come. Farms in this section will never be cheaper than they are today, and the man who invests and returns to the land will make a wise move. Old Ontario is surely but slowly coming to its own.

The boys on the farm are better off, if they only knew it, than thousands of the boys who are at large, wandering hither and thither, searching and looking for "rich bonanzas" to turn up. There is nothing like being practical and there is but one way to be so. Acquire business habits and train yourself to do good, honest, hard work. Don't waste your time learning to tie a cravat. You can buy cravats already tied.

Owing to the high cost of living the annual tea meeting in connection with the churches is disappearing. It is claimed that the meal cannot be provided for 25 cents, and the churches haven't the courage to raise the price—hence the disappearance of this old-time social event.

The Dominion Government spent \$8,400,000 on immigration in ten years. The immigration was 1,715,325. It has been estimated that an immigrant is worth a thousand dollars. So that five dollars a head is a very moderate price to pay.

CHOP STUFF.

The death took place Thursday night at her home, Strathroy, of Sarah Milner, relict of George Smith. She was 78 years old, and had been ill a long time.

Wm. English, of Petrolia, has disposed of his 150-acre farm in Moore township, to Wm. Stootley. The consideration was \$12,000.

Kingsville merchants are introducing the cash system, and Kingsville council has purchased a \$500 for the use of the municipality. Both are forward moves.

Mr. John McCort, Petrolia, will leave for Egypt on the 23rd of this month. He has contracted to drill for a Cairo syndicate on Mount Sani.

The Prisoner Moore, held in the jail at Sarnia for the murder of Mrs. King at Petrolia, was removed to an institution in Toronto, as his condition was such as he could not be kept at Sarnia. His mind appears to be gone, and it is doubtful if his case will ever come to trial.

Mother Graves' Worm Exterminator has no equal for destroying worms in children and in adults. See that you get the genuine when purchasing.

William Hodge, the 17-year-old son of Thomas Hodge, met with a serious accident at Oil Springs. Wishing to look into a tank he lighted a piece of waste and thrust it into the opening. The gas exploded, badly burning him. The accident will keep him under the doctor's care for some time.

Watford merchants have the goods and meet all price competition.

Queer Looking Worms.
New Zealand, Australia, the Samoan and the Solomon Islands, as well as portions of the Hawaiian group, are the homes of various species of worms with thick, heavy bodies and with a well defined neck connecting the body with a head that is a startling reminder of that of the monkey. In the Sandwich Islands they are called "me-ta-lu-ki," which means "creeper with a child's head." An old New Zealand legend says that at one time they were of immense proportions and threatened the extinction of all human life on the islands.

Principles of Action.
There are five good principles of action to be adopted—to benefit others without being lavish, to encourage labor without being harsh, to add to your resources without being covetous, to be dignified without being supercilious and to inspire awe without being austere.—Confucius.

Just the Other Way.
"Understand you have just done Europe?"
"Then you misunderstand."
"Haven't you just returned from abroad?"
"Yes, but I didn't do; I was done."—Houston Post.

A Good Cause.
All the schoolteachers at Lugano have gone on strike owing to a difference with the educational authorities. With splendid loyalty the little pupils are standing by the teachers and urging them not to give way.—London Punch.

The Natural Trend.
"I know of one place which should be a paradise for real estate men, the ground rents show such activity."
"Where is that?"
"In the earthquake region."—Baltimore American.

Humility, a rare thing among the earned, is rarer still with the ignorant.—Anatole France.

WINDOWS IN MANILA.

Translucent Shells Are Used in Place of Ordinary Glass.

Perhaps in no other country but the Philippines are conchas used as a substitute for window glass. These shells are flat, nearly round, and average four inches in diameter. The edges are trimmed off so as to leave panes about three inches square, and these are set in narrow strips of wood.

The shells are, of course, translucent rather than transparent, and the result is a soft, opalescent light, very agreeable in a country where the glare of the sky would be intolerable if ordinary glass were used.

To obtain the maximum window openings the sashes are made to slide horizontally on wide sills of hard wood in a manner similar to that adopted by the Japanese. By this means openings as wide as twelve feet are obtained.

To realize the splendid resources of the Philippines, says a writer in the Century, one has only to see the hardwood floorings in the public buildings and the residences of the better class. These consist of large slabs of mahogany, or, to use the local names, molave, narra, tindalo and acle, these being of various colors and graining. Frequently the pieces, occasionally as much as forty inches in width and forty feet in length, are laid alternately in dark and light shades. Polished by the household muchachos (house boys) till they reflect like mirrors, they produce a magnificent effect.

DODGED THE ROUNDSMAN.

The Tired Policeman Cleverly Got Himself Out of a Hole.

A police sergeant was going the rounds when he saw a policeman, whom we'll call Mullaney, go into an undertaker's shop where there is generally a pinocchio game in the back room. He knew there was no back way out for Mullaney, so "rounds" planted himself by the door and waited.

After a time he sent in word by one of the men working in the shop that he knew Mullaney was in there and that he had better come back on post, because the longer he waited the worse the complaint against him would read. There was much commotion in the back room, and as there were a number of coffins being loaded into a wagon outside they put Mullaney in a coffin and loaded him on the wagon. Then they drove him down the street a couple of blocks, and Mullaney climbed out. He stroked back up to where the sergeant was doggedly watching the door and saluted.

"Hello, rounds! Pleasant evening, isn't it?" he said. And the sergeant stared for a moment and then stamped away too mad to speak.—New York Sun.

An Iconoclast.
"All over Europe my wife made enemies by boldly doubting cherished traditions," said the traveler, "but her skepticism respecting Alfred the Great embroiled her in the most serious difficulty. An old gentleman who sat with thin, blue fingers spread above the feeble blaze from which my wife, red nosed and shivering, endeavored to extract a little warmth, expatiated on the cake burning episode. Said my wife abruptly: 'Don't tell me that old yarn again, please. I don't believe a word of it.'"

"Why not?" he demanded.
"Because," said she, "there never was a fire in England hot enough to burn cakes."

"Her retort did for the old gentleman what the fire had failed to do—it made him hot—but, even so, he never forgave her."—New York Press.

IT IS NOT IN THE BLOOD

Medicine Taken Internally Cannot Cure Eczema. It is Caused by Germs.

Eczema cannot be overcome by ordinary treatment and the old-fashioned way of dosing the system with drugs. Eczema is caused by a parasitic germ that bores into the skin. It is generally a contagious disease. Until the parasite is completely destroyed and removed, eczema cannot be cured. Fully one-third of skin diseases are in the form of eczema.

We so thoroughly believe that Rexall Eczema Ointment will overcome eczema and allied skin ailments, that we unhesitatingly promise to promptly return the money paid us for it should it in any way be unsatisfactory to the user.

Because of its remarkable cleansing, antiseptic, germicidal, soothing and healing influence, Rexall Eczema Ointment has a very pronounced value in the treatment of skin diseases, especially where the form of ailment is of the chronic, aggravating sort. We highly recommend it for the dry scaly form or the weeping type, where there is a constant flow of ill-smelling excretion.

Rexall Eczema Ointment is very prompt in relieving pimples, blotches, skin discolorations, ringworm, acne, nettle rash, tetter, hives, ulcers, insect bites, and for healing sores and wounds. It is a pleasant smelling, grayish-white ointment, and is very cleanly for use. Two sizes, 50c. and \$1.00. Sold only at our store—The Rexall Store.

Hard as anthracite and lasts longer. It ignites quickly, burns like wood with no more smoke. The ideal fuel for ranges, furnaces and open grates.

Gives splendid results in wood furnace or box stoves. Personally we STRONGLY RECOMMEND this coal as the best we have ever used. It is distinctly different from other cannel coal, inasmuch as it is adaptable to any use, and produces more heat.

GOOD DIGESTION SHOULD WAIT ON APPETITE.

To have the stomach well is to have the nervous system well. Very delicate are the digestive organs. In some so sensitive are they that atmospheric changes affect them. When they become disarranged no better regulator is procurable than Parnellee's Vegetable Pills. They will assist the digestion so that the hearty eater will suffer no inconvenience and will derive all the benefits of his food.
