

The first of the two volumes of this work is devoted to a general survey of the history of the subject, and the second to a more detailed examination of the present state of the science. The first volume is intended to give the reader a general idea of the subject, and the second to give him a more detailed knowledge of the present state of the science.

The first volume is divided into two parts. The first part is devoted to a general survey of the history of the subject, and the second part to a more detailed examination of the present state of the science.

The second volume is divided into two parts. The first part is devoted to a general survey of the history of the subject, and the second part to a more detailed examination of the present state of the science.
