

**GOOD POTATOES
BRING FANCY PRICES**

To grow a large crop of good potatoes, the soil must contain plenty of Potash.
Tomatoes, melons, cabbage, turnips, lettuce—in fact, all vegetables remove large quantities of Potash from the soil. Supply.

Potash

liberally by the use of fertilizers containing not less than 10 per cent. actual Potash. Better and more profitable yields are sure to follow.

Our pamphlets are not advertising circulars boasting special fertilizers, but contain valuable information to farmers. Sent free for the asking. Write now.

and all the leading commercial strains.

The great improvement effected in these flowers by the work of Mr. Groff, and the moderate price at which fine varieties are offered, has led to a marked increase in their cultivation, and they are now the most popular flower for table decoration during the summer months. We have a large stock and hope to be able to supply all demands.

CANNAS
