Cheapside Ont.

5-3mos.

HYBRID QUEENS.

I have still some good Hybrid Queens, mostly
of the Heddon strain (not purely mated), which
I will sell at

2 FOR \$1.00.

One Queen with one pound of Bees during
June for \$2.75.

These are splendid bees for honey gathering,
and I believe superior to the ordinary hybrids,
being not so cross and better comb builders.

I will have about the 25th June some good
Queens reared from swarming cells from selected
Queens which I will sell at the same price as
those advertised during March, April and
May.

Address,

G. A. DEADMAN,

Druggist and Apiarist, Brussels.

pany order.

VIRGIN QUEENS.

Each.....	\$0 60	Per 2.....	\$1 00
Per 6.....	2 75	Per 12.....	5 00

These are from good stock selected for honey
gathering qualities. Above prices are by mail
postpaid.

THE D. A. JONES CO., LD., Beeton, Ont.

W. Z. HUTCHINSON,

ROGERSVILLE, GENESEE, CO., MICH.

HAS received scores of unsolicited testimonials in re-
gard to the excellency of his little book -

"THE PRODUCTION OF COMB HONEY."

and it is with pleasure that he publishes the following
selections:

Success to the little book of fresh and live ideas.—E. E.
Hasty, Richards, O., March 28, 1887.

It is the best book on the production of comb honey I
ever read.—F. W. Holmes, Coopersville, Mich., March 29,
1887.

I congratulate you on getting up such a complete treat-
ise upon the subject in so small a book.—W. H. Shirley,
Mill Grove, Mich., March 27, 1887.

Your little work on "The Production of Comb Honey"
is a valuable acquisition, and coincides with my experi-
ence.—Dr. L. C. Whiting, East Saginaw, Mich., April 23,
1887.

It is simply at the head in every respect, so far as it
goes. All can say that there are larger books—those that
cover more ground, but none that cover their ground
nearly as well.—James Heddon, Dowagiac, Mich., April 2,
1887.

You have given us a valuable work. Though terse, it
lacks nothing in completeness. We need more such
books—those that give facts in the fewest words. For
four years I practised essentially the system you give, and
know its superior worth.—Dr. G. L. Tinker, New Phila-
delphia, Ohio, April 17th, 1887.

Your book received last night and read through before
I could sleep. To be sure I knew the most of it from your
articles in the bee-papers, but it is nice to have it all together
in a neat little book like yours. You just more than boiled
it down, didn't you?—Dr. A. B. Mason, Auburndale, O.,
Mar. 29, 1887.

Friend H: Have just received your little book. Much
that it contains will be found new, I think, with the
majority. The cost in production must in some way be
lessened. You set out the primary elements by which
such lessening of cost may be made. I say heartily that
I think your little book should be studied carefully by
every producer of comb honey. With kind regards.—
J. E. Pond, Foxboro, Mass., March 28, 1887.

Your lovely little book gave sister and me much pleasure
and the author will please accept many thanks. Since
criticism is invited, permit me to say that we reach the
conclusion too soon. Had the book been less interesting
we might not have discovered the fault—might even have
thought it a merit—but since the book is as good as it is
pretty, its brevity is a serious fault; a fault which will
surely be amended in the second edition. With the hope
that it may receive the cordial welcome that it merits, I
am yours truly.—"Cyrus Lipswik."

Price of the Book, 25 Cents. Stamps taken
either U.S. or Canadian.
