One of the numbers is that of Dec., 1891, containing eight extra pages (36 in all), 7 half tone portraits of leading bee-keepers, illustrated description of the best self-hiver known, choice bits of information gathered at the Chicago convention and a most instructive and interesting discussion of "Remedies for Poor Seasons" It is the largest and best number of the Review yet issued. These numbers are offered at this low price that bee-keepers may be induced to send for them and thus become acquainted with the Review; its editor knowing full well that such acquaintance will prove of mutual benefit. New Discovery by Accident

HAIR ON THE NECK, FACE, ARMS OR ANY PART OF THE PERSON

quickly desolved and permanently removed with QUEEN'S ANTI-HAIRINE, the new and wonderful discovery. Discovered by accident while I was washing my hair, it was found that the hair was completely removed. It is perfectly harmless, so simple any child can use it. Lay the hair over and apply for a few minutes, and the hair disappears as if by magic. No scientific discovery ever attained such wonderful results. Thousands who have been annoyed with hair on their FACE, NECK and ARMS attest its merits. It cannot fail. If the growth be light, one application will remove it permanently; the heavy growth, such as the beard or hair on moles may require one or more applications. Select all the goods with the slightest pain or injury when applied or ever coming back. Young persons who find an embarrassing growth of hair coming can also use it. Harmless as water. Price of Queen's Anti-Hairine \$1. per bottle, sent in safety mailing boxes postage paid by us, (securely sealed from observation).
