A BRIDE'S CONFESSION

"Yes, dear, I am married now, and George and I are keeping house in the loveliest flat on 64th St. Well, yes, we did get married somewhat suddenly. My health, you know, had for some time been very delicate, and Dr. Heavy-foe told mamma that he feared I would follow poor, dear papa, who died three years ago from a wasting disease. Dear George was almost crazy when mamma told him what the doctor said, and I nearly cried my eyes out, but each day I went to the 'lovely Nelly Parker' say to her mother. 'I think that George Blauvelt is just too lovely for anything, and when the girl he's engaged to dies, and they say she is dying of a galloping consumption, I'm going to step in to her shoes and become Mrs. George Blauvelt; now just you wait and see.' This spring I heard George seemed to be almost resigned to the idea that we should never be married, and the thought that that deceitful busy-bug might get him after all nearly drove me mad. One day I read the testimony of Dr. Campbell's Arsenic and Hummel as to the wonderfully invigorating effect of DR. CAMPBELL'S ARSENIC WAFERS, and I resolved to try what they would do for me. I commenced their use on the 4th of July. George had just sailed for Europe on business for his firm. On Sept. 18 he returned. I was, from the use of the Wafers, by that time again a well woman, and so encouraged was he with my healthy and robust appearance that he insisted we get married the very next day. I could not say him nay, and as you will see by my card, I am now Mrs. George Blauvelt. Do call soon and let me introduce George to you; I am sure you will like him, he is so handsome, and as good as he is handsome. Good-by; be sure not to forget."

THE DEY OF ALGIERS!
THE SHAH OF PERSIA and the SULTANS of TURKEY and MOROCCO now FATTEN and BEAUTIFY their frames exclusively on DR. CAMPBELL'S ARSENIC COMPLEXION WAFERS. So great is the demand for these marvellous Wafers that their manufacture is continued day and night.
"The Shah found his harem in a state of disorder on his return to Persia."—N. Y. World, Oct. 12, 1889. Reason—Their supply of CAMPBELL'S WAFERS was exhausted.
ILLUSTRATIVE of the desirability of a certain amount of Plumpness, rancour has it that the above distinguished Oriental Potentates make it a practice to WEIGH their wives regularly once a month, precedence in rank and imperial favour being accorded to the wife possessed of the greatest number of pounds avoirdupois.

Coughs, Colds, Croup.
action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that it is warranted to break up the most distressing cough in a few hours' time, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balsam will prevent it if only taken in time. For Consumption, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs, ALLEN'S LUNG BALSAM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and \$1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced COUGH CURE. If you have not tried the Balsam, call for a 25-cent bottle to test it.

CATARRH.
A New Home Treatment for the Cure of Catarrh, Catarrhal Deafness, and Hay Fever.

The microscope has proved that these diseases are contagious, and that they are due to the presence of living parasites in the lining membrane of the upper air passages and eustachian tubes. The eminent scientists—Tyndall, Huxley and Beale—endorse this, and these authorities cannot be disputed. The regular method of treating these diseases is to apply an irritant remedy weekly and even daily, thus keeping the delicate membrane in a constant state of irritation, accompanied by violent sneezing, allowing it no chance to heal and as a natural consequence of such treatment not one permanent cure has ever been recorded. It is an admitted fact that these diseases cannot be cured by an application made oftener than once in two weeks, for the membrane must get a chance to heal before any application is repeated. It is now seven years since Mr. Dixon discovered the parasite in catarrh and formulated his new treatment, and since then his remedy has become a household word in every country where the English language is spoken. Cures effected by him seven years ago are cures still, there having been no return of the disease. So high are these remedies valued, and so great is the demand for them, that ignorant imitators have started up everywhere, pretending to destroy a parasite—of which they know nothing—by remedies the results of the application of which they are equally ignorant. Mr. Dixon's remedy is applied only once in two weeks, and from one to three applications effect a permanent cure in the most aggravated cases. N.B.—For catarrhal troubles peculiar to females this remedy is a specific. Mr. Dixon sends a pamphlet describing his new treatment on the receipt of ten cents in stamps. The address is A. H. Dixon & Son, 303 King Street West, Toronto, Canada.—Scientifico American.

Sufferers from catarrhal troubles should carefully read the above.

Allen's Lung Balsam
Allen's Lung Balsam was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the Lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that it is warranted to break up the most distressing cough in a few hours' time, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balsam will prevent it if only taken in time. For Consumption, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs, ALLEN'S LUNG BALSAM is the Great Modern Remedy. Household Hints.

GINGER SNAPS.—One cup molasses, one cup sugar, two-thirds cup lard, one tablespoon ginger, one heaping teaspoon soda in four tablespoons of hot water, a little salt. Mix hard, roll thin, and bake well through. Spread singly on a board as taken from oven, and let lie till perfectly cold. Do not cover them tight like cookies, but put in milk pan, cover with cloth or paper to keep out flies or dust, and keep in a dry, cool place.

W. B. Lynch, M.D., of Auburn, N. Y., says that he has used WISTAR'S BALSAM OF WILD CHERRY in his family for coughs and pulmonary complaints, has recommended it to others with invariably happy results, and esteems it a valuable remedy.

MINCE PIE.—Take two parts of chopped apples to one of lean beef, add currants, raisins, sugar and spices to taste; moisten with cider. Let stand on the back of the stove until cooked; let cool, and bake in puff.

Bronchitis.—Unless arrested, will terminate in consumption. An almost never failing cure for this complaint is found in Allen's Lung Balsam, which can be had of any Druggist, price one dollar per bottle.

HEAD CHEESE.—Clean and scrape the pigs' heads, boil them in salted water until the flesh loosens from the bones. Take out the meat, season with salt and pepper in the proportion of one ounce of pepper to four of salt and any herbs you prefer—sweet basil and thyme are good—stir thoroughly, tie in a thin cloth and hang it to drain. When perfectly cold and dry take it from the cloth and put under pressure to shape it for slicing.

Minard's Liniment Lumberman's Friend.

BORAX FOR WASHING.—The excellent washerwomen of Holland and Belgium, who get up their linen so beautifully white, use refined borax as a washing powder, instead of soda, in the proportion of one large handful of powder to about ten gallons of boiling water. Borax, being a neutral salt, does not in the slightest degree injure the texture of the linen. Those who try this will be pleased with the result. It is also nice to wash blankets or woollen goods in this manner.

TAKE CARE of your health. Use pure articles in preparing your food. Imperial Cream Tartar Baking Powder contains no impurities or adulterants. All grocers sell it.

WALNUT CAKES.—Half a pint of brown sugar, half a pint of walnut kernels, three even table-spoonfuls of flour, a third of a teaspoonful of salt and two eggs. Beat the eggs light, adding as named the sugar, salt, flour and the walnuts. Drop the mixture in small "rocks" on buttered paper lining a baking pan and set in the oven until browned.

Hersford's Acid Phosphate. Recommended by Physicians

of all schools, for the brain, nerves and stomach.

ROAST SPARE-RIB.—Take a nice spare-rib with part of the tenderloin left in; season with salt, a little pepper and sage or summer savory; put in a pan with a little water; baste often and roast until nicely browned and thoroughly well done.

DELICIOUS BUCKWHEAT CAKES.—Two cups buckwheat flour, one of wheat flour, two table-spoonful (level) Cleveland's Superior Baking Powder, one teaspoonful salt, and enough sweet milk or water to make a batter. Bake at once.

FOR TOOTHACHE.—To cure toothache, pulverize about equal parts of common salt and alum. Get as much cotton as will fill the tooth, damp it, put in the mixture and place it in the tooth.

FIG PUDDING.—Take a quarter of a pound of figs, pound them in a mortar, and mix gradually half a pound of bread crumbs, and four ounces of beef suet, minced very small, add four ounces of pounded sugar, and mix the whole together, with two eggs beaten up and a teacupful of new milk. When all ingredients are well mixed, fill a and boil for four hours.

CRANBERRY SAUCE.—One quart cranberries, one cup water and one cup sugar; stew only enough to cook thoroughly. It may be passed through a sieve and the skins removed if preferred.

FOR A HARD COUGH.—For a hard cough, a home-made syrup from the following recipe is very good: Equal parts of thoroughwort, slippery elm, flaxseed and licorice. After steeping, add equal parts of sugar and molasses, and boil to a thin syrup. Dose, one or two teacupfuls.
