

NEW YORK EXCHANGE

MONEY MARKET FIRM, 4 PER CENT.
FOR THIRTY DAYS—FOREIGN
HOUSES HAVE SCATTERING
ORDERS.

New York, March 22.

The market for Americans after opening dull at declines from our closing prices, has had a moderate rally, and is now quiet with prices practically at our parity.

There is said to be some good foreign buying of Central Pacific and Atchison preferred. The time for the deposit of the stock and bonds of the former Company expires to-morrow. Deposits made subsequent to that date may be refused or may incur a penalty.

The re-organization plan provides for an assessment of \$2 per share on Central Pacific stock. The stockholders on payment of this assessment and surrendering their stock, receiving 100 Southern Pacific and \$25.00 worth of the New Southern Pacific 4's which are now selling when issued at about 86 $\frac{1}{2}$.

The Sugar mystery seems to be no nearer solution than it was on Thursday last, when the phenomenal rise took place. The Bulls on it are quite confident, in spite of official denials, that there exists some sort of agreement between Atchison Street Railway and the outside refineries, whilst the Bears assert that the whole movement is a piece of gigantic manipulation, and that in reality the stock is not worth as much as it was some months ago, when the publication of an article in the Sun was followed by a decline of some 30 points.

The bears, however, are cautious about barking their opinions by operations, as shown by the fact that the stock is practically a drug in the loan market.

Senator Flower is quoted as predicting that B. R. T. will sell at 125 before it pays any dividend. However, the meaning of this prediction is not very definite as it may not pay a dividend for two or three years.

The Street seems to have magnified unduly the importance of the acquisition of Brighton Beach railroad. This property has caused severe loss to owners in the past, as is shown by the fact that under the foreclosure sale, stockholders received nothing. Of the railroads, Atchison Pfd seems to be the favorite short sale. It is very confidently expected the February statement will make an indifferent showing compared with February 1898.

The character of the buying of Union Pacific Pfd continues to attract considerable attention and in all probability, if the outlook for money were less confused, the Street would be willing to start a bull movement in this stock.

NEW YORK STOCK MARKET.—March 22, 1899.
