

California Academy of Sciences, and made many friends. In 1877 he moved to the east where he made his first appearance in Boston. In 1879 he went to New York and was for many years manager of Wallack's Theatre. In 1889 he left New York for his old home in Australia, but returned again in 1890.

As an Entomologist, Mr. Edwards had a world-wide reputation, and was recognized as one of the highest authorities in North America. Through his own generosity, we have in our club library most of his valuable papers. Amongst these his "Descriptions of Pacific Coast Lepidoptera," and "Bibliographical Catalogue of the Described Transformations of North American Lepidoptera," are very valuable to the working Entomologist. His death will deprive many of an able and kind helper, as well as of a friend, who even through his correspondence had endeared himself to those who never had the pleasure of meeting him.

A. A. A. S.

Beginning August 12th next, a series of meetings extending over two weeks is to be held at Washington, D.C. These meetings will be of the utmost interest. On August 12th the first meeting will be held of the Association of Agricultural Colleges and Experiment Stations. August 17th the Society for the Promotion of Agricultural Science begins its sessions, and also on the same day the meeting of the Association of Economic Entomologist, of which Mr. Fletcher of this club is the President for the year. These meetings will take two days, and on the 19th the American Association for the Advancement of Science begins its week of meetings and entertainments. Washington is undoubtedly now the scientific centre of the North American continent, and great preparations have been made to ensure the success of these meetings. Everyone who could possibly attend them should make a special effort to do so.
