RE FIRE RECORD.

To our Patrons and Correspondents:

Will you kindly favor us with your views as to the most practical method of tabulating the results of our Fire Record for 1881, especially on the following points:—

1. Most useful headings under which to classify risks.

2. The most convenient geographical divisions.

We thank you for the information that you have favored us with during this year respecting fire losses, and trust we may be able to compile tables that may be of permanent value to underwriters in the Dominion.

As this is a matter affecting your interests, we wish to be guided by your advice and suggestions, if you kindly will favor us with them.
