

ble in fifty years, at five per cent, for the purpose of constructing the road. Meantime the feeling grows stronger that the Dominion authorities have resolved upon a continuance of their disallowance policy, and that the hints thrown out before the elections that this policy would not be continued in the future, will be disregarded. The better to persist in the disallowance programme, a vigorous crusade is being conducted in eastern papers against Manitoba, with the evident intention of endeavoring to persuade people there that to allow Manitoba to build railways to the boundary, would prove disastrous to eastern interests in the Northwest. The absurdity of such arguments is well known here, where the efforts against disallowance are directed toward securing a competitive connection with Eastern Canada. They may, however, serve the purpose of stirring up eastern people against Manitoba, thus furnishing support to the Government in the continuation of C.P.R. monopoly in this province. It is becoming daily more evident that matters are rapidly nearing a crisis. The outlook is ominous, and what the near future may develop it is hard to foretell.

A NEW post office building is being erected at Rapid City.

MILLERS will find an interesting article in this issue clipped from the *American Mail and Export Journal*, entitled "Milling Systems."
