

## MUNICIPAL ENGINEERS, CONTRACTORS AND MATERIALS

on Stanley street for W. R. Miller as follows; masonry, Whighton & Morrison; brick work, A Cowen; carpenter and joiners' work, Geo. Roberts; roofing, Montreal Roofing Co., plastering, Jas. Cline, painting, W. P. Scott. Same architect has let contracts for a cottage at Westmount for Chas. Auburn as follows. masonry, Nicholson & Stewart; brick work, Isaac Lewis; carpenter and joiners' work, Mr. Neeland; roofing, Montreal Roofing Co.; plumbing, Jas Booth.—Dunlop & Heriot, architects, have awarded contracts for alterations and additions to Erskine church, to be utilized as a dry goods store as follows: masonry and brickwork, Isaac Lewis; carpenter and joiners' work, Robt. Sharp; roofing, Montreal Roofing Co.; plastering, J. Morrison & Son.

## THE USES OF TERRA COTTA.

Some of the advantages which the use of terra cotta in our buildings allow, (says The Builder) are the utmost degree of freedom in design, and also the fact that any and every shade of color can be obtained. Properly used, it is practically indestructible by any of the elements of heat, cold or moisture. Its strength is great, while its weight is very little in comparison with its bulk or the work it will perform. It has already come into extensive use, but has a still wider future by reason of the improvements that have been made in its manufacture. This has not only greatly reduced the cost, but added much to its practical and aesthetic value. The defect of not being able to obtain it in longer pieces will disappear in time. The defect in jointing can hardly be called a defect, neither the slight warping of its surfaces nor the frequent shading in its color. If in its use the design is made with a due regard for certain peculiarities, which are inherent in itself and are always to be recognized, nothing but satisfactory results will follow.
