

MISSIONARY NEWS.

Mr. Flad, who for thirteen years was himself a missionary to the Jews in Abyssinia, informed a meeting in Berlin that, notwithstanding the withdrawal of European agency, the Christian movement among the Falashas, or 'black Jews,' still goes on, seventy-two having been baptized during the past year.

The Paharis of the Rajmahal Hills, Bengal, are a savage race, immersed in drunkenness, yet simple and trustful of the English, numbering about 100,000. Six whole villages of them last year renounced idolatry and placed themselves under Christian instruction; many are now baptized. The Rev. A. Stark, of the C. M. S., says that the whole race has become favourable to the Gospel.

The Arthington Mission in East Central Africa, towards establishing which Mr. Arthington of Leeds contributed £3000, and others in England and Scotland £4000, has been delayed on account of the rebellion under the False Prophet Achmet in the district of the proposed mission; but, the "Freedmen's Mission Aid Society" announce that as soon as this difficulty is over, a large number of coloured missionaries will enter the region, making Khartoum the base of their operations.

It is reported in the daily papers that King Mtesa is dead, but the last letters of the C. M. S. missionaries from Uganda, dated February 8th, spoke of him as being in his usual health. They reported things as being generally prosperous. A spirit of religious inquiry was spreading; one priest of the *lubari* (spirit of the Lake) had cast off his charms and ornaments, and avowed himself a believer in Christ. The newspapers have also announced the entire withdrawal from the Lake country of the Roman Catholic missionaries.

What is Catarrh?

(From the Mail, Can., Dec, 14th). CATARRH is a muco-purulent discharge caused by the presence and development of the vegetable parasite amoeba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are:—Morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxoemia, from the retention of the effeted matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat, up the eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death. Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucus-tissue. Some time since a well-known physician of 40 years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fails in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs. A. H. DIXON & SON, 305 King Street West, Toronto, and get full particulars and treatise free by enclosing stamp.
