Always Read this Notice.

THE EDUCATIONAL REVIEW is published about the 10th of every month. If not received within a week after that date, write to the office.

THE REVIEW is sent regularly to subscribers until notification is received to discontinue and all arrearages paid.

When you change your address, notify us at once, giving the old as well as the new address. This will save time and correspondence.

The number on your address tells to what whole number of the *REVIEW* the subscription is paid.

EDUCATIONAL REVIEW,
St. John, N. B.

WM. CROCKET, LL.D., who has been acting principal of the New Brunswick Normal School for the past year during the absence of Dr. Eldon Mullin, has received the permanent appointment, the latter having decided to retain his present position in South Africa. Dr. Crocket has many warm friends among the teachers of the province, who wish him the success which his ability as a teacher and his mature experience so well deserve.

THE reduced price of the Supplementary Readings in Canadian History has led to such a brisk demand that the volume will be sold for one month longer at the low price of seventy-five cents. Teachers should secure this volume now—one of the best aids for the study of Canadian History. Address EDUCATIONAL REVIEW, St. John, N. B.

THE *Northwestern Journal of Education*, of Winnipeg, has ceased to exist. During the three or more years that it has been published it was conducted with great care, and its editorial articles were bright and original.

MR. GEO. J. TRUEMAN, a New Brunswicker now at a Berlin University, writes an interesting letter to the *REVIEW* on German Schools, Dr. John Waddell contributes a second article on Examinations, of great interest to teachers of science. These, with other articles on hand, will be published, if space permits, next month.

THE *Canada Educational Monthly*, of Toronto, appeared in January in a new dress and under new management, Mr. John C. Saul taking the place of Mr. MacMurchy, who has filled the editorial chair of that paper very acceptably for over twenty years. The journal under its new management presents an excellent appearance and its articles, chiefly devoted to secondary education, are well written.

THE *Quebec Mercury* calls attention to the miserably inadequate salaries of the teachers of that province. The average salary paid to women teachers in Montreal is \$375 a year, but this is munificent compared to that received by the French Catholic teachers of Quebec province who are paid the average salary of \$111. Nor is this the worst. 120 female teachers in Temiscouata county get on an average \$82 a year; \$80 is the average received by the 58 teachers in Chicoutimi; and 71 female teachers in Charlevoix get an average of \$68 a year, less than \$6 a month. And this is in the twentieth century, and in Canada!

IN Ontario there is some evidence that low water in teachers' salaries has been reached, and that a slight but almost imperceptible flood tide has set in. From 1892 to 1899 the average salary of male teachers dropped from \$421 to \$394, and of female teachers from \$297 to \$294. Statistics just issued show that the average salary for 1901 for male teachers has risen to \$421 and \$300 for female teachers. The increase is attributed to the fact that business pursuits offer better remuneration to young men and women; and regulations now make it more difficult to secure permissive certificates to teach for a short time.
