INDUSTRY CANADA REGIONAL OFFICES

The regional offices work directly with Canadian companies to promote industrial, scientific and technological development. They help clients recognize opportunities in a competitive international marketplace by providing services in the areas of business intelligence and information, technology and industrial development, and trade and market development. They also promote and manage a portfolio of programs and services.

The following are areas in which Industry Canada regional offices have special competence:

- Access to trade and technology intelligence and expertise;
- Entry points to national and international networks;
- Industry sector knowledge base;
- Co-location with International Trade Centres connected to DFAIT and Canadian posts abroad;
- Client focus on emerging and threshold firms; and
- Industry Canada Business Intelligence.

THE BUSINESS OPPORTUNITIES SOURCING SYSTEM (BOSS)

BOSS is a computerized databank that profiles over 26,000 Canadian companies. It lists basic information on products, services and operations that are useful to potential customers. The system was established in 1980 by Industry Canada in co-operation with participating provincial governments. BOSS was originally established so that trade commissioners posted around the world by DFAIT could find Canadian companies that might be able to take advantage of foreign market opportunities. Today, more than 11,000 domestic and international subscribers use the system not only to locate Canadian suppliers but also to obtain market intelligence and identify market opportunities. The majority of subscribers are Canadian companies.

MARKET INTELLIGENCE SERVICE

This service provides Canadian business with detailed market information on a product specific basis. The service assists Canadian companies in the exploitation of domestic, export, technology transfer and new manufacturing investment opportunities. The intelligence is used by Canadian business in decisions regarding manufacturing, product development, marketing and market expansion. The information includes values, volume and unit price of imports, characteristics of specific imports (e.g., material, grade, price range, etc.), names of importers, major countries of export, identification of foreign exporters to Canada, Canadian production, Canadian exports and U.S. imports. Two-thirds of the clientele for this service are small businesses.
