

◀ "Foreign policy is an extension of domestic policy and as we have gained control of the one, so we must gain control of the other..."

O.D. Skelton
Canadian Club, Ottawa, January 1922

▲ A pivoting steel sculpture entitled *Colonne #16* by Ulysse Comtois has a central steel core and flexible arms consisting of aluminum plates that can each move full-circle.

◀ *Case of the Lost Line* by Claude Tousignant.
