

- (c) Have final decision on the production;
  - (d) Issue or recommend the issue of flight authorities for test flights and positioning purposes; and
  - (e) Issue Export Airworthiness Certificates for the complete aircraft.
- (3) The conduct of test flights as part of the airworthiness approval process shall be governed by the requirements of the *Canadian Aviation Regulations*, under the oversight of the airworthiness inspectors referred to in paragraph (2) of this Article, in conjunction with Article III.

### ARTICLE III

Within the limits of the laws and regulations of the Republic of Korea, the Government of Korea shall be responsible for:

- (1) Ensuring that the Government of Canada receives the support it requires to fulfill the responsibilities and functions in Article II;
- (2) Ensuring that the Government of Canada can perform its functions in Article II without interference or adverse influence from any organization or person under the jurisdiction of the Government of the Republic of Korea;
- (3) Facilitating the performance of the required test flights of paragraph (3) of Article II. The same facilitation shall be extended to the Transport Canada Civil Aviation of the Department of Transport flight crew licenses, where required; and,
- (4) Facilitating entry into the Republic of Korea of Government of Canada officials as members of the technical or administrative staff of the Canadian Embassy whose status shall be accorded in accordance with the Vienna Convention on Diplomatic Relations. The Government of Canada shall ensure that these officials shall perform the functions mentioned in Article II necessary for the implementation of this Agreement.

### ARTICLE IV

- (1) The procedures used by the Government of Canada to grant airworthiness approvals are those documented in the *Canadian Aviation Regulations* and associated Standards, advisory materials, policies and procedures. These include "Flight Authorities", "Export Airworthiness Certificates For Aircraft" and "Continuing Airworthiness".
- (2) Where the Government of Canada needs information for the investigation of service incidents, accidents, or suspected unapproved parts involving an aeronautical product that was produced in the Republic of Korea, the Government of the Republic of Korea, upon request from the Government of Canada, shall initiate appropriate and necessary actions in accordance with the relevant laws and regulations of the Republic of Korea.
