

# A MAP OF NEW-ENGLAND,

Being the first that ever was here cut, and done by the best Pastern that could be had which being in some places defective, is made the other less exact: yet doth it sufficiently shew the Situation of the Country, and conveniently well the distance of Places.

The figures that are joyned with the Names of Places are to distinguish such as have been assaulted by the Indians from others.

A Scale of forty Miles.

ARD'S MAP OF NEW ENGLAND.
