Power Commision of Ontario at Eugenia Falls, 36 miles from Owen Sound, where five thousand horse-power is being harnessed for the use of the town of Owen Sound. Delivery of this power is promised by January 1st, 1915. This is the first actual development of power by the Power Commission in the Province and no doubt care will be taken to insure every factor contributing to the best result. This power should be sufficient for many additional factories and no doubt will be taken advantage of.
