Doctor Forbes Godfrey, M.L.A., speaking at a well-attended meeting of the Oakwood Conservative Association last evening said: "Mr. Rowell poses as a new man who was altogether unassociated with the iniquities which awakened the indignation of the people and resulted in the defeat of the Ross government. Yet he was a platform worker for the Ross government and spoke for it in every general election and never complained about the liquor legislation.

"When the exorbitant prices of school books were under consideration Mr. Rowell proposed no reform. On the contrary he was working to keep up the extortion, and the Ross government, alarmed at the discoveries that were being made in relation to the profits of the monopolists, appointed a commission to mg made in relation to the profits of the monopolists, appointed a commission to make a secret enquiry about the scandal and to report. Twenty witnesses were called, all more or less associated with the school book business, and a report was made declaring that the prices which the Whitney government has since cut enormously, were not at all too high.

"In the legislature the then opposition called for the report of the evidence upon which this report was founded. After some delay the rooms." apon which this report was founded. After some delay the government declared that there was no copy of the evidence in existence, and it was charged that the evidence had been destroyed."

Continuing, Dr. Godfrey said that Mr. Rowell had made speeches declaiming against the granting of land to railway companies to aid them in the providing of means of transportation for the settlers.

The only land grant made by the Whit-The only land grant made by the Whitney government was a grant, not of the land itself, but of the proceeds of the sale of certain areas of land to the Canadian Northern for its line thru New Ontario. Unlike the grants made by the former government the company does not get the land, but only the amounts resulting from sales at a price fixed by the government.

sulting from sales at a price fixed by the government.

Pulp Wood Areas.

"But the records," said the speaker, "show that Rowell was not aware of the receipt of a share in the distribution of the people's estate. In the later years of the Ross administration the value of the wood suitable for the production of pulp became known, and thereafter large areas of pulp land were given out to companies. One of these grants was given to a group of men of whom Mr. Rowell was one.

Was one.

"Rowell and his friends were authorized to cut spruce, poplar, whitewood and fackpine over an area that is thus described: A strip five miles wide on each side of the Nepigon River, a five-mile strip around the entire coast of Lake Nepigon, and in addition the right was given to cut over fifty square miles.

"It was estimated that the Nepigon concession covered 2500 miles of territory.

Characterizing N. W. Rowell's slogan of "abolish the bar" as a "fake policy pure and simple," Rev. H. A. Fish, a Methodist minister, made a slashing arraignment of the Liberal leader's platform at a crowded meeting held in Winchester Hall last night in the interests of Dr. Pyne and Mark H. Irish. Mr. Fish, who was introduced by Chairman C. Meech as a minister thoroly conver-C. Meech as a minister thoroly conversant with present-day conditions in Ontario and Quebec, lost no time in plunging into his subject. He declared that the great issue of the present campaign was not the abolition of the bar 100m, but bilingualism. The real question, he averred, was whether the English tongue was to remain paramount thruout the province. On this subject Mr. Rowell had remained mute, he said.

"I am opposed to the abolish the bar policy," he declared, amid cheers. "It is a fake policy, pure and simple—a policy of hypocrisy. It has no sincerity of foundation. The safest and soundest principle of temperance would be followed by adopting Sir James Whitney's policy."

The Real Premier.

Hon. W. L. He was the real premier at the present time, and it was his policy that was being discussed, and not the Conservative one. Mr. Rowell's policy was one of social service, improvements in agriculture, education and taxation, and all those things which go to the benefit of the people.
