

Of the first Kind are all Corn, Vallonia, Salt, Flax-Seed, and other Seeds, Marble, Minerals, Wood, Earth for Looking-Glasses, Gold Dust, Rock Alum, Vitriol, Elephants Teeth, &c. Of the second Kind are, Sugars, Cheeses, Fruits green and dry, Kernels of Pine Apples, Salt Fish and Flesh, or Fish and Flesh Smoak dried, &c. Potargo, Drugs, Colours, and every Thing of that Kind, which can be separated from their Envelops. Of the third Sort are all Kind of Liquors, Brandies, Oils, Wines, which may be taken out; and when it is acknowledged that they are so, they are secured with Rosin over the Corks, which serves to certify that they are free. Raisins, Ashes, and Rosin or Pitch itself, though they come in Envelops or in Vessels, yet in the Hope that the Spirits within destroys all Suspicions, or repels any bad Effluvia, or the Effects of Contact, it is only required to rip the Bags and Envelops, and to tar the Seams of them, and they may be taken out.

Such Things may be taken out, if the Merchant's Necessity requires it; or else every Thing coming in Envelops performs Quarantine; the Envelops performing it, though emptied of their Contents; though the most refined Precautions are not required, if they are but a little handled, and exposed to Air. Yet most of the Deliveries of such Things are performed at the *Lazarettos*, that it may be done with the greater Circumspection, considering that Things, very free of themselves, may however be put up and mixed with something subject to Quarantine: As for Instance, Pistacchio-Nuts, and Coffee, amongst which Cotton is frequently
