Strader swore that he asked Morison what pantry he wanted him to open his wife's private apartment, and asked to be shown the warrant. SHOULD EMPHATICALLY MANITOBA IN THE FLYING OF OUR FLAG

Empire Club Prefers a Suggestion to Premier Whitney and to Others.

At the weekly luncheon of the Empire Club yesterday the subject of flags and their proper display was a theme for discussion.

E. M. Chadwick outlined the legal aspects of the case with respect to the flying of the British flag. On no occasion should the American flag be placed on the same staff, even in a subordinate position. Under proper conditions, however, there could be no objection to the display of a foreign flag.

H. C. Osborne deprecated undue haste in criticism in respect to the matter, and counselled moderation. Premier Roblin's proposed legislation to amend the proposed law to stimulate loyalty, and was commended to the consideration of Premier Whitney.

The resolution was finally adopted: "The members of the Empire Club of Canada desire to take this first opportunity of expressing their appreciation of the proposed legislation of Premier Roblin and the government of Manitoba, to encourage the flying of the Union Jack over the school buildings of that province during school hours."

We would further express the hope that Premier Whitney and the government of Ontario will consider whether some action along similar lines could not be adopted in this province as being a fitting and laudable and promoting patriotism amongst our school children.

In view, also, of the meeting of provincial premiers at Ottawa, we would take the liberty of suggesting for their consideration the desirability of united action in this respect.

It is further hoped that every Canadian will resent the wrongful use of our national emblem in connection with commercial and trade enterprises by refusing to patronize the article or object so advertised.

It would be unfair to the members of this club in this general connection that the time has come for organized efforts to be taken in this province in favour of the flying of our own flag in proper appreciation, but in severely deprecating the use of foreign emblems without permission having been obtained from the proper authority or except upon special occasions when they may be used in a friendly international way with the Union Jack in the place of honor, and we further express the hope that individuals as well as organizations throughout Canada will discourage the too free use of any foreign flag.

Finally, that when national standards are being used, their general use will promote more and more, a sturdy patriotism and dignified independence amongst our own people.

At last night's meeting of the U. E. Loyalists, the question of the raising of the American flag at the exhibition was brought up. On motion a strong resolution was ordered to be drafted and presented to the exhibition authorities, which was carried at an early date. A paper was read by Miss Merritt and another by Miss Wade.
