## RAILWAY BOARD DECIDES HERKIMER-STREET CASE

Company Must Relay Rails and Leave the Devil Strip at Four Feet.

HAMILTON, Sept. 13.—(Special.)—In regard to the condition of Herkimer-street, trouble has for some time existed between the corporation of the City of Hamilton and the Hamilton Street Railway Company, and this matter has become the subject of two judgments by the Ontario Railway and Municipal Board. On July 5 last the board ordered that the old rails be removed from this street between Queen and Locke-streets, and the tracks be properly re-laid with suitable rails upon sound ties before Oct. 1 next. The Street Railway Company re-laid this portion of their track, but the manner in which the work was done led to further litigation by the city, which made complaint before the board. That the company, in relaying this portion of their track, had widened the devil-strip from 4 to 5 feet, and raised the height of the rails several inches above the grade of the street, while the space between the rails and for two feet outside had not been properly filled. The city engineer had previously furnished the company with a profile showing the grade, but nothing on the profile justified the widening of the devil-strip, and also the raising of the rails. This profile was evidently prepared on the assumption that no change was to be made in the width of the devil-strip, and also its width was not expressly stated in bylaw No. 624, passed on March 23, 1902, nor in the accompanying agreement of the same date. It was clearly not the intention of the City of Hamilton, in the opinion of the board, to alter the width of the devil-strip, or to leave to the discretion of the company the decision as to where and how the rails were to be laid.

According to the contract the rails were to be placed in such a manner as would least obstruct ordinary traffic, and all work of construction and repairs were to be done under the supervision and to the satisfaction of the city engineer, who testified that this condition of the devil-strip would interfere with the vehicular traffic; that he knew nothing of it until the work was completed, and that the company had not been under his supervision and to his satisfaction.

In the circumstances, the board decided that the company was in the wrong, and orders that the rails shall be re-laid, so as to leave the devil-strip at the original width of four feet. The board further orders the city to supply suitable material for macadamizing the roadway between, and for two feet outside the rails, and the company to do at once the work necessary to put that part of the street in a proper state of repair, with the grade shown upon the city engineer's plan, as the street is dangerous in its present condition. Costs are only levied to the extent of \$5 against both the city and the company, in order to pay for the stamps required by the judgment, which is signed by James Letich, chairman, and A. B. Ingram, vice-chairman of the board.

**The Great Spiritualist Medium.**  
Particularly notice the great spiritualist, H. T. Williams, reads from ages, look of the future, the wonder of mystic seekers; if you want facts call on him. Foretells the future. If not money refunded. Strictly accurate. Paid for all letters of correspondence to his parlour, 99 North John-street, city.

**Police Want Him.**  
The police are looking for George Moore, late secretary-treasurer of Osborne Lodge, Sons of England, who is said to have a shortage of about \$100 in his accounts. It is said that the matter has been hanging fire for about a year, and that Moore has several times promised to pay up the money owing the lodge.

Norman Johnston, seven years of age, residing with his parents at 257 East Beaver-street, died from burns, while he received over a hundred while playing with some lighted balloons.

Stewart presided at the police court to-day in the absence of Magistrate Jelfs, and Charles Booker, William Moore, justices of the peace for the county, heard a willful damage case from the court.

The William Murdoch of Hamilton, referred to in the Chicago despatches as having been a lover of the law, and who was murdered by Edward Hildebrandt, a few days ago, Murdoch was killed at 51 York-street, where he was shot by a woman who responded with the woman she was not married, and he feels very much aggrieved at the notoriety which he has received in connection with the case.

Frederick J. and Mrs. Porteous of Hamilton have issued invitations to the marriage of their sister, Lydia Maud Platt, to Robert Morley Hoese, the wedding to take place on Wednesday, Sept. 25.

**H. W. & G. Railway Route.**  
At a joint meeting of the parks board and finance committee, held to-night, the Hamilton, Waterloo & Guelpf Railway was given permission to run its road thru Dundurn and Harvey Park. The company was given until Dec. 31, 1909, to complete the road to Galt, and until the same date in 1910 to Guelpf. If unable to complete the works in the time specified it will be necessary for it to have spent at least \$100,000 in order to get an extension for one year longer. The company must allow any other roads desiring a route into the city to operate over its tracks on terms to be determined by the Dominion Railway Commission. In the case of the Hamilton, Waterloo & Guelpf Railway, it will be expected to run at least six cars each way daily over the entire length of the line, and if it fails to operate its cars for three successive months it shall forfeit all rights and privileges. All construction work done in the parks shall be subject to the approval of the parks board and the city council. The company is compelled to protect all level crossings with gates or watchmen, at the direction of the railway board, and where it does not do so, the cars shall not run at a higher rate of speed than 15 miles an hour.

Mrs. Bauer, mother of Dr. Bauer,

**ADAM'S PANTS**  
were the very newest style in his day. Our new Fall lines are the very newest for 1907, and truly a grand showing from \$1.50 up to \$6.50.

## CONFIDENCE IN DREAM AVERTS-RAILWAY WRECK

Engineer Sees His Train Running Into Landslide and Heeds Warning.

HARRISBURG, Pa., Sept. 13.—Confidence in a dream probably averted a big wreck on the Northern Central Railroad.

Previous to reporting for duty at the round house, Engineer James Burd, who hauls the Buffalo flyer, leaving Harrisburg at 11.10 p.m., dreamed that his train had run into a landslide at a point between Dauphin and Harrisburg, 15 miles from here. He told his dream to several round house attaches, but they laughed at him.

Engineer Burd, to ease his mind, determined to run slowly after passing Dauphin. So, speeding his train up to the limit till Dauphin was passed, Burd slowed up, and it was while he did for a point some distance north of Dauphin, identical with the place he had seen in his dream, the engine plowed into a landslide. Going slowly, the engineer was able to bring his train to a stop with little or no damage.

## SCHOOL REPAIRS.

Board of Education Property Committee Awards Contracts.

The property committee of the board of education yesterday afternoon decided to ask for tenders for fencing, grading and sodding, and for fitting up the science-room at Riverdale High School. It was decided to use the domestic science-room at Dawson-street school until additional accommodation could be made.

The following tenders were accepted for the work at the Howard and Pape-avenue schools: Howard-street, plastering, Carpenter, Wm. Eaton, \$850; painting, J. Pinnemore, \$22; plastering, Beaver & Co., \$145; galvanizing iron and roofing for Howard and Pape-avenue schools, A. B. Ormsby & Co., \$215; Pape-avenue School—Carpenter work, William Eaton, \$680; painting, J. Pinnemore, \$20; plastering, Beaver & Co., \$187. The lowest tender was accepted in each case.

Rosedale School re-opens Monday, 15th inst. Phoebe-street School will not re-open until Monday, Sept. 23.

## Why Women Have Coarse Rough, Sallow Skin

Because Poor Digestion and Improper Elimination Have Clogged the Stomach.

"Womanly beauty is largely the outward expression of health. Every woman with pale cheeks and poor complexion needs medicine—needs a potent tonic to regulate her system. To tone up the stomach, to insure good digestion—to give new life and vitality to the whole system—where there is a remedy like Dr. Hamilton's Pills?

Dr. Hamilton's Pills enable you to eat what you like—the correct constipation—make nourishing blood—instill force and vim into a run-down system. If nervous and can't sleep your remedy is Dr. Hamilton's Pills—they search out the cause of your insomnia and you rise in the morning refreshed, strong and vigorous, ready for the day's work.

Dr. Hamilton asks every weak and debilitated person to use his Mandrake and Butternut Pills. They make old folks feel young and weak folks feel strong. Their effects upon insomnia and languor are marvelous. Hundreds declare they soothe and quiet the nerves so that a good night's rest always follows their use.

To look well, to feel well, to keep well, use Dr. Hamilton's Pills. They are mild cleansing strengthening—good for the young or old. Sold by all dealers in 25c boxes.

**COMBINED MUSEUM.**  
Provincial and University Collections May Be Merged.

University and provincial authorities are proposing to combine the present provincial museum with that of the University of Toronto and making one fine museum.

The plan suggested is to build a large museum on university property west of the continuation of Avenue-road, altho as yet no definite steps have been taken.

Both the university and province have specimens which the other has not, and the combining of the two would make one splendid museum, and, along with the aid of the government, would eventually make the museum one of the finest in the country.

**WRECK IN MICHIGAN.**  
G. T. R. Freight Crashes Into Another—Nine Box Cars Smashed.

DETROIT, Sept. 13.—The second wreck on the Grand Trunk within two weeks occurred at Royal Oak Thursday afternoon at 2.45, when a Detroit-bound regular freight, running behind a "double-header," crashed into the rear end of a way freight unloading at the depot.

Nine box cars were crushed to splinters; both engines on the rear train.

were reduced to a scrap heap. The engine and firemen barely escaped with their lives by jumping.

The cause of the accident seems to rest in the fact that the semaphore, the house which warned the train before it crashed into the rear end of the division, was never raised into place. Some blame the conductor of the advance freight for this negligence. Others say it was not his business to handle the semaphore.

**DIFFERS FROM FRISCO.**  
Vancouver Authorities Did Not Condone the Outrages.

TOKIO, Sept. 13.—In the Hochi this evening Count Okuma contrasts the anti-Japanese disturbances at San Francisco with the Vancouver riot, briefly, as follows:

"The latter occurrence must not be placed in the same category as the former. The San Francisco authorities directly or indirectly countenanced the acts of the rioters, while the municipal government was a centre of corruption, almost a state of anarchy prevailing. I liken the San Francisco riot as to give permission to the patriots to take measures of self-defence. The sincerity so fully evidenced

# The One Opportunity Of a Lifetime.

Once in a lifetime "OPPORTUNITY" knocks at the door of every human being, and, if not at once grasped, passes on. Some with commendable foresight open the door and seize that opportunity to their future advancement and delight; others, carelessly, thoughtlessly or indifferently, allow it to pass by, and it becomes a lifelong regret.

Business Systems Commercial School, strictly the FIRST school, decidedly the ONLY school giving a complete course of Modern Loose Leaf Accounting, now opens the door of Opportunity to you. Loose Leaf Accounting is the system of to-day, and from present prospects will be the system of the future. Every young man, every young woman of business, should, therefore, have a thorough knowledge of it.

Business Systems Commercial School has outlined a superior course in both Business and Short-hand Departments. We want this fact to become known. Newspaper advertising, while good in its place, is not the only kind. We want to send you within a year a large number of walking and talking advertisements in the person of graduates whose success during their course and in their subsequent positions, will commend this school to their brothers, their sisters, their relatives and friends.

**OUR PROPOSITION.**  
In our new rooms in the new Systems Building we can at once accommodate two hundred energetic, ambitious students. Ours is a new school; we know it. We are human beings, and know how suspiciously new things are looked upon until they have been tested. Our testing time has come. We do not fear results. We will meet you here, way, to the next two hundred who register we will give a bonus as follows:

To those who register for six months' day classes, paying fees in full therefor, according to our regular schedule, we will give as a bonus three months' tuition extra, or the month of to-day. To those who register for three months' day classes, paying fees in full therefor, we will give as a bonus one month tuition extra, or four months in advance.

If you would be one of the two hundred, start now.
