Next Week at the Theatres

Madame Emma Calve, greatest of living sopranos, signed a contract for a concert tour this season with John Cert two years ago. Last spring she was lured into accepting a brief engagement at the new Manhattan Opera House in New York, under the direction of the indefatigable Oscar Hammerstein. It was her first appearance in grand opera in three years. So phenomenal was her success, and so magnificent was the reception which New York music-lovers tendered her upon her return, that when Oscar offered her a contract to appear in opera and the contract to appear in three years. Remarkable Psychic Astrologer few words upon that subject. Tells Past and Future With

From the great City of New York, where scientists and investigators are eagerly watching the progress of inventions and spending millions of dollars in the perfection of methods by which the masses may be benefited, comes the startling announcement that professor Albert Postel, the great Astrologe, has perfected a system by which he can foretell the principal events of a life, forewarn people of danger, point out the road to success and explain the cause of failure in so many lives.

The professor sars that he can explain who your enemies are, tell you those persons in whom you can place confidence and from whom you may expect favors, name your bleky days tell rock the alway should certainly set us makes the laws should certainly set us makes the laws should certainly set us makes the laws should certainly set us the death of another was sentenced to one year's imprisonment; a villain who raped a child received two years, and the man who swore falsely to win his bride is punished worst of all.

persons in whom you can place confidence and from whom you may expect favors, name your lucky days, tell you what pitfalls to avoid, what opportunities to grasp, advise you about your business and how to improve your condition physically, financially and socially. His method is unlike that of any other astrologer, and from the expressions of gratitude contained in the many thankful letters from his patrons, it is evident that much good is being accomplished by his work. The following are samples of the letters received by Professor Postel, and go far toward showing that his Life Horoseopes are not only accurate, but are prepared with a view to guiding and benefiting those who apply to him for counsel.
