T. EATON COLIMITE

Canada's Greatest Store.

No Old Goods!

The burden of our advertising for weeks has been brand new goods for less than shop-worn goods sell for elsewhere. You shall have everything at the least possible market price. That's the contract we mean to live up to, and trade answers to the helm with remarkable promptness.

The exceptions of the merchandise world are here—the things that get out of the usual channels and are rich with money-saving chances. But no old goods! The store is fuller than ever with the newest and best of everything, all subject to your command.

With business here at high-water mark the entire organi- party was his undertaking this camzation is enthusiastic. To be so busy early in the season is quite exceptional. We hope others are busy-we know we are. Like Robert Browning's gypsies it must be very disheartening

"To go on with the grinding Up and down and nobody minding."

But this is an unusual store—so we've said all along. No day without something newer and more tempting, and no month without a new record of improvements. The varieties, the quantities, the prices disarm criticism, and "satisfaction echoes through the aisles like the notes of a song."

Furniture Sale!

Everybody knows by this time what we're doing. nave excellent reason to believe that the largest Furniture business is done here. It is the outgrowth of industry, perseverance and absolute command of ready cash. We buy when and where we can to best advantage, and these money-saving chances are now at your disposal:

to deal with them according to the THE POSSIBILITIES OF HUDSON'S BAY.

before long, railway connection Hudson's Bay. The people of Manitoba are especially anxious to secure a shorter and cheaper method of transporting their grain to Europe. They expect some day to see steamships running between some port on Hudson's Bay and Liverpool. Such a prospect must be full of fascination, not only to the Manitobans, but to the people of the whole Northwest. The establishment of a regular steamship service between Hudson's Bay and England would of course be of incalculable benefit to the Canadian Northculable benefit to the Canadian Northvest. Fort Nelson, on the west coast ers in the different cities of Great of the bay, is about 100 miles nearer Britain has been well established it Liverpool than is New York. We in Ontario wish to reach Hudson's Bay tle at different points in Canada. The because it is supposed a valuable fish- risk of getting a name for inferior ing industry can be developed on the sure of victory. Although he was opposed by all the forces that the Opposition could muster against him he seems to have fairly walked over his seems to have fairly walked over his and valuable minerals exist in abundance in this district; because our back country will be opened up for settlement; because, finally, Ontario will then have a seaport of its own and a new summer resort will be opened up for the continent. But we in Ontario 800 measures the success that attends for the continent. But we in Ontario the Baronet's return to public life in at least do not feel disposed to spend millions of dollars in a ranway venture that will bring us no adequate returns. Despite the several reports we have had as to the resources of the bility of Hudson's Straits, more or less uncertainty exists in the public mind sal of the Dominion Government to organize an expedition to report on the possibilities of Hudson's Bay will be warmly supported in ontain this expedition is decided on, and we this expedition to prevent warmly supported in Ontario. If trust it will be, it should not prevent the Ontario Government also doing something in the same line. Sir Oliver Mowat ought to commisson a party of three or four experts to report on the characteristics of the country between

an expedition should be organized at once, and be ready to set out as soon been wrested from Nature. We have just learned the trick of making light pass through opaque bodies, or rather to the different places. Improvement we have come upon a new kind of in the manufacture and management light, which will penetrate such subwe may make progress by first considering what an aqueductor is. If we can define the latter term properly, it may not be difficult to establish a saed by means of an electric dynamo. The cathode ray penetrates wood just Let us then briefly analyze the characteristics of aqueductors as we find them in Toronto. In the first place, an aqueductor is a man of unlimited gall. We say, "man" because we are not aware that there is such a personage as an "aqueductors," unless, indeed, the wife of an aqueductor may be so designated. An aqueductor is a man of unlimited gall. An aqueductor is a man of unlimited gall. We say "man" because we are not aware that there is such a personage as an "aqueductor may be so designated. An aqueductor is a man of unlimited gall. The discovery was made by Prof. A time ago. Scientists in America have already tested the process described by Roentgen and the merits of the discovery have been confirmed in every particular. The New York Sunday papers contain various photographing the bones of the average man would logate on a quarter-section in Manitoba. But there is this difference: the average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The average man will make a cash payment on account of his purchase. The cathod by Prof. A. The discovery was ma acteristics of aqueductors as we find them in Toronto. In the first place, an aqueductor is a man of unlimited gall.

Roentgen, of Wurzburg University, a ccuracy. Prof. A. count of his purchase. The aqueductor floats along on promissory notes that are as unnegotiable as they are visionary. No one is more lavish of "paper" than the typical aqueductor. Leather forming the three highests of the production of the produ dollar a thousand. He is prepared to graphing two 10-cent pieces through aires. Nothing but an aqueduct stands patients, which will show the location between them and embarrassing riches. of such foreign substances as bullets

> were but thin air. Just what cathode rays are is difficult to explain. Here is Edison's explanation: The electrical poles are or negative. The cathode pole sends out rays of energy which travel in a straight line, unlike light, which travels in an undulatory or wavelike path. These cathode rays are a form of energy which, although it was supposed to exist, has now been demon-

cided in a court of law. The public have a right to know whether the qualification demanded by the Municipal Act has or has not any real significance. It will be interesting to learn whether the court can declare that an alderman is properly qualified while judgments for thousands of dollars are outstanding against him. Whatever judgment the courts may render, it is evident that the law is a farce if it permits a man to qualify on his debts instead of on his gents. cided in a court of law. The public should show our amity toward our neighbor, with whom our trade rela-tions have been increasing yearly. Our The law, whatever it is, should be ndustries and productions should be who are now representing the citizens largely represented on this occasion, cannot qualify, steps should be taken and an exhibit by the Government sito prevent them taking their seats. It milar to that displayed at the Columis a sound business principle that an individual who has not a financial inment, we should omit nothing in the terest in any concern should not be allowed to handle the property of such concern. A man who has a vote in the concern. A man who has a vote in the council, without possessing anything at stake in the city, is, in our opinion, a dangerous individual. No matter how high the tax rate may be raised, he does not feel its baneful effect. A man with no stake in the city loses nothing by allowing the city to part with valuable franchises. A noticeable feature at the City Hall to-day is the presence of several impoguinous.

To visit the fair at Montreal will undoubtedly be the popular outing for our pepole this summer. It is a city with a history more fascinating and romantic than perhaps any other on the continent, for it was from there that the great and daring French adventurers and explorers set forth to penetrate the western wilds, discover the Mississippi and add a vast empire to the dominion of France.

It is, besides, one of the most beautiful cities in the city of the control our pepole this summer. It is a city with a history more fascinating and romantic than perhaps any other on the continent, for it was from there that the great and daring French adventurers and explorers set forth to penetrate the western wilds, discover the Mississippi and add a vast empire to the dominion of France.

It is, besides, one of the most beauconcern. 'A man who has a vote in the able feature at the City Hall to-day is It is, besides, one of the most beauthe presence of several impecunious tiful cities in the world, and never so aldermen who are trying their best to attractive as in the summer season. convince their fellow-aldermen that it is in the interest of the city to hand over a valuable electric light privilege

PROF. ROBERTSON'S SCHEME IS NOW BEING PERFECTED.

try Under Proper Government Inspection-An Immense Canadian Trade

connection with purchasing consumwould not be prudent to slaughter cat-The Royal Grenaders are expecting a large number of recruits to enrol to-morrow evening, the date fixed upon by Colonel Mason to commence drill for the present season. Young men or mention the slaughtering of animals and the preparation of dressed meats in Canada to one place for 1896.

The Plan Proposed.

The plan includes the opening up of retail depots in about ten of the lar-ger cities of Great Britain for the purger cities of Great Britain for the purpose of placing within the reach of consumers Canadian chilled meats in their very best condition under their own name, "Canadian." It is intended that the commercial agencies for the distribution of the meats in Great Britain will be so constituted that the merchants there will be prepared to purchase a similar quality of Canadian chilled meats on their own account during the following year, if the same be prepared under the supervision of the Government and duly certified to by competent inspectors. The plan will by competent inspectors. The plan will provide for an extension and continu-ance of #the business on both sides of the Atlantic by private enterprise after the Government has opened up the channels for one year. Inspectors of meats from animals to be slaughtered at Toronto, Montreal, Quebec, Winnipeg, Calgary and probably some other points will likely be appointed for 1897. The beef merchants of Great Britain can then buy Canadian chilled beef of a certified standard of quality and con-tinue a steady trade after the confidence of and connection with ultimate consumers have been secured by the action of the Government.

Other Industries Follow. The establishment of minor indus-tries, such as tanning, glue-making, and keen competition which now prevails, the working expenses of many busi-nesses are altogether paid out of the Canada from its establishment. He did not secure much support at that time, but since the imposition by the Imper-ial Government of an embargo on Ca-nadian cattle, the House of Commons and the country will doubtless readily country will doubtless readily support the dairy commissioner.

Shadow Pantomime The Young Men's Guild of St. Matthias' Church gave a grand concert and shadow pantomime at St. An-drew's Hall last evening. The enterdrew's Hall last evening. The enter-tainment was a success. The talent included Messrs. F. J. Perrin, humor-ist, and E. Callaghan, tenor; Master Eddie Cook, boy soprano, and others. A company of ladies from Holy Trini-ty Church presented some clever char-acter sketches. Mr. E. J. Pearce acted as accompanist.

and calcerous or stony deposits with A Trolley Leaves the Track. Car No. 500, northbound on Yongestreet, left the rails about 10.15 last night. There was no damage done to the car, and the only inconvenience will make plain the exact character of puzzling fractures-which, indeed, will reveal the hidden secrets of the human experienced was that caused by the blocking of the traffic for a few minbody as if the outer layers of flesh utes. The car is one of the company's latest improved trolleys, and the wonder is that it was not damaged, as the were forced into different

SEPARATE SCHOOL BOARD.

Required at St. Peter's.

It was principally routine business at the meeting of the Separate School Board last hight. Those present were Rev. Father's McCann, V.G., Rohleder, Hand, McEntee and Cruise and Messrs. Hand, McEntee and Cruise and Messrs.

James Ryan, William Ray, P. J. Mulqueen and D. A. Carey.

A vigorous petition was read from the pastor and parishioners of St. Peter's parish, asking for the erection of a school building. At present the one building does duty both for a church and a school. Rev. Father Minehan, pastor of the parish, spoke in support of the petition. Mr. John Cluney was the other member of the deputation.

The petition was referred to the Committee on Buildings and Sites, the understanding being that the committee will report at the next meeting.

The report of the attendance showed The report at the next meeting.

The report of the attendance showed the total registered number for the month of January to be 3463; the highest attendance 3276 and the average attendance 23276 and

attendance 2843.

The Financial Committee reported recommending the payment of accounts amounting in all to \$1929.73.

The report was adopted without dis-The Reason-

The Committee on Management and Supplies made several recommendations, including one for the purchase of desks for St. Patrick's School, for both senior departments, and one for kindergarten supplies for St. John's School. The committee also thought it would be well for the board to have in its employ a man capable of at in the supplies of at the supplies of a state of the supplies of the suppl in its employ a man capable of at-tending to all sundry repairs that re-quire attention from time to time in the various schools, and recommended that a special committee be appointed

The deputation consisting of Major (W. B. McMurrich, Major Harston, Dr. Pyne, Messrs. W. D. McPherson, H. H. Dewart and A. R. Denison left H. Dewart and A. R. Denison left last night by the Ottawa express to present the petition to the Governor-General in Council asking for the reorganization of the Garrison Artillery. Mr. E. Coatsworth has charge of the arrangements in Ottawa, and it is expected that the members for the County of York will co-operate with the city members.

Toronto Bible Training School. The Rev. Dr. Stifler of Crozer Theoor the Kev. Dr. Sthier of Crozer Theological Seminary is at present in the city and will give a course of lectures on the Epistle to the Romans at the forenoon sessions of the above school. He will also lecture on Tuesday and Thursday evenings on special subjects at the same place.

At 3 o'clock yesterday afternoon, there took place the funeral of the late Alfred T. Burns, at one time organist of the McCaul-street Methodist Church. The funeral was from the house, 49 Bleecker-street, where a large number of friends and relatives had gathered as a last mark of respect to a young man whose good qualities had endeared him to many. Rev. Mr. Truax of the Holiness Association delivered of the Holiness Association delivered the address and the body was interred in Mount Pleasant Cemetery.

headaches come from disorders peculiar to her sex. Possibly the apparent cause of the sex. It comes woman's body. Any trouble of those affects the whole body. It may show itself in the symptoms which are characteristic of a dozen disorders. Thousands of times, women have been treated for the disorders thought to be indicated by these symptoms, when the real trouble was much deeper and more serious. Dr. Pierce's Favorite Prescription was compounded for the sole purpose of relieving womankind of the ills and pains very commonly considered the uncomfortable inheritance of her sex. It cures where really good physicians have failed. Thousands of women have testified that after taking treatment from several physicians without benefit, the "Favorite Prescription" cured them completely and quickly. It has been used for over thirty years, and has an unbroken record of success. The afflicted woman will find immediate relief and ultimate cure in the "Favorite Prescription." There is no doubt about it.—there is no question about it. The woman who hesitates is invited to send 31 one-cent stamps for customs and cost of mailing a copy of Dr. Pierce's Common Sense Medical Adviser. This celebrated work contains full information about Dr. Pierce's medicines, with the reproduced photographs of hundreds of people who have been cured by these world famed remedies, also giving their names and addresses, besides plain, clear information about all of the organs of the human body and their functions. It has reached the unprecedented sale of 680,000 copies at \$1.50 a copy. Thus the expense of preparation has been defrayed, and now 500,000 copies will be absolutely given away. Remember that this book is not a mere advertising pamphlet, but a genuine standard work

mas been defrayed, and now 500,000 copies will be absolutely given away. Remember that this book is not a mere advertising pamphlet, but a genuine standard work of 1008 large pages, over 300 illustrations, some of them in colors. Address, World's Dispensary lical Association, Buffalo, N.Y.

CIVIC INSURANCE COMPAN

THE MUNICIPAL COMMITTEE TAKES A STEP IN THIS DIRECTION.

re Investigate the Supposed Abuses to the City's Charity Grants-The House of Industry Grant Opposed — Engineer Mansergh's Report Expected Next Week The Mayor Receives a Number of Fair

Ald. Lamb's municipal committee, consisting of Ald. Hallam, McMurrich, Scott and Small, on motion of Ald. Hallam, yesterday, decided to ask the co-operation of all the municipalities in Ontario in forming a plan of muni-Ald. Hallam moved that the chair-

man ask the council for an amount, not to exceed \$200, for the purpose of promoting the bill through the Legislature. The motion carried, Ald. Scott alone objecting.

All municipalities will be asked to request their members in the Local House to assist in procuring necessary legislation.

Ald. Davies favored the city purchas ing a controlling interest in some new or existing company, and the city to be liable only for the amount invest-

ed.

Mr. James Roaf, representing clients whose names he did not wish to disclose, said they were prepared to furnish civic insurance at a rate not ta exceed those in force before the big fires, and to share the profits with the corporation. THE CHARITY GRANTS.

The Committee Wants Certain Information Before Passing Them. Ald. Jolliffe was appointed chairman of the Committee on Charities.

Ald. Scptt thought it would be a good move for the chairman to bring in a report showing what the abuses of the distribution of charities consist of and where they exist. Mr. Taylor was asked to bring in a report on all institutions.

institutions.

The chairman informed the committee that it was not his intention to do all the work, that he expected the members to inform themselves.

Ald. Hallam said the charitable institutions would get their grants no matter what the committee did. The deputations would come to the council and bring such influence to bear that the grants would be made.

Ald. Scott thought injustice was done some of the institutions last year.
They should all be considered on their merits. He moved that all the institutions be asked for full information regarding their operations. Carried.
Ald. Hallam opposed the request of the House of Industry for \$35,000 to build an addition to their premises. It was decided unanimously not to make

the grant. Ald. Jolliffe suggested that Dr. at Sheard work in conjunction with Re-lief Officer Taylor in preparing a re-
