the T., H. & B. Railway Company for the cutting in half of its water rates and taxes for ten years for the cross town line, there seems to be but one opinion. The public mind is opposed to any such arrangement. Mayor Colquhoun announced that, as he understood the application, he would oppose it. All the aldermen were of the opinion that the request was altogether too steep. The members debated the question at great length. Superinendent Fisher said that uo subscriptions had been promised his company in the event of the switch being laid. One proposition was that the assessment be fixed at \$70,000 for ten years, with was agreed. Aid. Little Cirl Has Crown Plump and Rosy Since Taking Hood's.

Round about Christmas time many gentlemen select fur garments for personal wear, the fur spirit seems to take faster hold than at any other time, and, what grander collection of splendld garments could be found than one sees at J. & J. Nervous mothers and sickly children endure a vast proportion of the suffering which is caused by impure and impov-erished blood. Hood's Sarsaparilla gives relief by purifying and enriching the blood. Read this statement:

I also had nervous prostration and weakness in my stomach, which A Magic Pill,—Dyspepsia is a foe with which men are constantly grappling but cannot exterminate. Subdued, and to all appearances vanquished in one, it makes its appearance in another direction. In many the digestive appearants is as delicate as the mechanism of a watch or scientific instrument in which even a breath of air will make a variation. With such persons disorders of the stomach ensue from the most trivial causes and cause much suffering. To these Parmelee's Vegetable Pills are recommended as mild and sure, ed made me feel very ill indeed. I decided to try Hood's Sarsaparilla, which was highly recommended by many, and by the time I had taken four bottles I was in perfect health. About a year ago my little girl, then six years old, had bronchitis and chicken pox. We were told that her

Only Chance for Life was the careful treatment she might receive at the hospital. We took her there and for eight days they had no hope of her recovery, but later she had a change for the better. Her sickness, however, left her very delicate and weak, and she did not grow any for a year. It was then I thought I would try Hood's Sarsaparilla, inasmuch as I had used it for myself and found it such a good medicine for building up a constitution. She had not taken two bottles before she had improved wonderfully. She has grown rosy and plump and is quite herself again. I have great faith in Hood's." MRS. M.
