ALL THE FRIENDS OF THE UNITED STATES.

A renewed effort is about to be made to settle the disputes between Canada and the United States, the parties to the settlement to be very much the same as they were the last time—namely, the McKinley administration at Washington and the Laurier administration at Ottawa.

The World has no desire to hamper the negotiations, but it is in duty bound to set the public mind at ease as to the character and ambitions of the various men and Governments who have this matter in charge.

And in this respect, the first thing we wish to point out is that in our opinion the McKinley administration at Washington and the Laurier administration at Ottawa.

INSULTS ALL ROUND.
 The recent Globe newspaper carried the headline: "The people of Ontario, the better it will be for all parties concerned, and the more hope there will be for domestic peace in the recent election. The people of Ontario have unanimously condemned the conduct of the Hon. Israel Tarte and his followers from the province of Quebec, who are now in connection with the despatching of the Canadian contingent to South Africa, and his other speeches and articles in this country during the same."

The people of Ontario have not attacked the French-Canadian race, nor have they any intention of doing so, but they have been insulted by the conduct of the Hon. Israel Tarte and his followers from the province of Quebec, who are now in connection with the despatching of the Canadian contingent to South Africa, and his other speeches and articles in this country during the same."

But not only are the people of Ontario as a body insulted, but the Globe is insidiously cultivating the idea that some of the French-Canadian race are doing so. And since the election that the Catholics of this country are more ignorant than the rest of the community and more likely to be misled by a demagogue, it is the duty of the Liberal party, whether it be for Sir Wilfrid Laurier or for Hon. J. W. Ross in Toronto. We ask our fellow Canadians to be careful of the words they use in the future.
